Remarks of Mayor James Rolph, Jr., in re Transbay Bridge, Golden Gate Bridge, Sale of San Francisco Bonds, Mills Field Airport and War Memorial Trustees.

THE MAYOR: Gentlemen of the Board, you have permitted me, by resolution, to leave the City for a period of three weeks. It was necessary for me to go to Washington on personal matters, and I went at my own expense, and while East I looked into the status of a number of matters in which the Board and the City are very much interested. And I promised that I would look into them, and I want to make you a report of just how I find things in connection with these important projects which confront the City at the present time. We are all interested in this Bay Bridge. I asked the President the status of the bridge matter, and he said to me that he was simply waiting for the Governor to make his appointments on the Commission which he had authorized, and that, as soon as the Governor had made his appointments, why, the Commission would meet. I had the pleasure of traveling from Chicago to Sacramento with Admiral Gregory, Admiral Stanley and Colonel Pillsbury, three of the members of the President's Commission. Mayor Ryan, I think it is, was here on the Coast, and they were to meet yesterday, last night, or today in Sacramento. I have just finished talking with the Governor's official secretary, Mr. Kennedy, and they have all had luncheon together and they are now in session, and he does not know what the program will be, but as soon as he can find out, he will telephone to me, to let me know when they will arrive in San Francisco, because I told him that we wanted to meet them when they reached here. So you will learn, from the papers tomorrow, or any information I get this afternoon, the exact status in connection with the Bay Bridge, and when the hearings will take place, and where they will take place.

While in Washington I called upon Secretary of War Good, and in our conversation, after presenting the City's compliments to him, I asked him, how about the Golden Gate Bridge? And he said that no permit had yet been issued for the building of the Golden Gate Bridge. And he referred me to General DeKyne. He telephoned to General De Kyne, who received me immediately when I reached the War Office. And General DeKyne said that no permit from the War Department as yet has been issued to build the bridge; plans must first be approved for the Golden Gate Bridge, as required by law. And he said that any money spent, other than for investigation, for the preparation of plans for submission are premature. He said that Mr. Strauss knows the procedure and plans must first be submitted to the San Francisco office.

Now I was told, indirectly, that the permit which had once been issued by the War Department had lapsed, and I was told, indirectly, that it was very doubtful whether we would get another permit to build the bridge. I respectfully suggest to the Bridge Committee that they become acquainted with the situation, ascertain upon what presumption money is being expended, ascertain whether or not—which General DeKyne does not think is necessary—whether an Act of Congress is necessary to cross from Government land to Government land across the Golden Gate, and to ascertain—and $135,000 which I have heard here is necessary to make borings—and to ascertain where the pillars are and the approaches made, whether, when these plans are prepared, whether they will be satisfactory to the War Department and the permit immediately given. I say this with all kindness and as a suggestion to the Committee, that it proceed with the full knowledge that the permit will be issued when the plans are prepared, and not find out, after the plans are prepared, that the War Department may not grant a permit.

That is my report, respectfully given to the Bridge Committee, which I think, from indirect remarks which I heard and from the statement made by General DeKyne that there is no permit, and with the full knowledge that I believe this Board believes that there is a permit upon which the bridge is to be built, and all the counties north of Marin believe that the bridge is to be built, that those particular points be immediately ascertained.

SUPERVISOR MARKS: Why did you say it had lapsed? Was the reason given for it having lapsed? Was it the lapse of time?

THE MAYOR: Evidently there must have been some provision in the permit that was given that work must be started within a certain period of time, or something to that effect, but I give you the exact words from the Secretary of War, and the exact words from the engineer in charge of the work. And I do not want to interfere in any way with the work the fine Committee is doing, but I give that thought as the latest report I could gain in Washington on the subject.

SUPERVISOR STANTON: Mr. Mayor, I was going to suggest that the engineers are working hand in glove with the local, that is, the governmental authorities in charge, and they have offered every assistance in the preparing of the preliminary plans. The engineering corps in the district have volunteered, or did volunteer, some time ago, to aid in the making of the preliminary surveys of all the different locations. A permit—or no permit, I believe, is needed, other than the permit of the local authorities, to make the top borings that go on the ground above water. A permit is necessary to make the borings in the channel, and at the last meeting of the Board of Directors that permit was applied for, but the authorities—that is, the authorities that were located here, see no objection, and feel that there will be no objection to granting the permit to make the borings. That is the preliminary step. A sort of a tentative permit had been granted many years ago on a specification of the plans that were gotten out generally by Mr. Strauss and Chief Engineer O'Shaughnessy. Those plans are now on file in the War Department at Washington, and I have never seen anything in the permit that specified the starting of work at any particular time. As near as I can find out, from the report that Mr. Filmer and Congressman Welch gave us, the War Department is heartily in accord with the building of the bridge; in fact, at the time they gave the permit they went so far as to specify that there should be no tolls for military purposes, and that in time of war the bridge would be taken over by the War Department. And, of course, after the preliminary borings are made, then it will be necessary to go to the War Department with the finished plan, as to just where the footings will be and how they will be located. And the first step that is made—and I say, we are already to proceed with the borings as soon as we get word from Washington whether they will permit us to go out and make those borings there. They

will cost, it is estimated, under $30,000, but before we could do a thing, those borings would have to be made, and on them, the findings from those borings, the plans will be completed.

THE MAYOR: Now, Mr. Stanton, in anything I said today, I make no criticism of anybody. I am in favor of building the Golden Gate Bridge, and I want to tell you just the status that I find these things in, coming back fresh from Washington, and if there is anything in what I have said that would help the Committee to look further into the matter, I would respectfully suggest that the Committee look into the attitude of Secretary Good and General DeKyne, who are the powers at the top of authority.

SUPERVISOR STANTON: Secretary Good?

THE MAYOR: And General DeKyne.

SUPERVISOR TODD: Mr. Mayor, when we got this permit originally from the Government, haven't we a copy of it?

THE MAYOR: I presume so.

SUPERVISOR TODD: In whose hands is it?

THE MAYOR: I don't know.

SUPERVISOR STANTON: The Bridge District has it.

SUPERVISOR TODD: Has the District such a permit from the Government?

SUPERVISOR STANTON: A tentative permit, yes.

SUPERVISOR TODD: You have seen it, have you?

SUPERVISOR STANTON: Yes.

SUPERVISOR TODD: There is nothing in there about time?

SUPERVISOR STANTON: I do not recall anything about time. This is the first time I have ever heard there was such a question raised. I do know that, before a final permit was granted, that you must make your borings and must have your plans for the completed structure, and we are not at that place yet. We did at our last meeting apply for a permit to make the borings. Then after that we get the completed plans out if the borings prove satisfactory, then the plans are gotten out and the application is made for the bridge, with completed plans.

SUPERVISOR HAVENNER: Mr. Mayor, I want to call your attention to the fact that all the matters pertaining to the Golden Gate Bridge District this Board has referred heretofore to the Public Utilities Committee. I move at this time that the Mayor's report be referred to the Public Utilities Committee, with a request that it report back to the Board.

SUPERVISOR TODD: Second that motion.

THE MAYOR: If there is no objection, it is so ordered. (Bringing down the gavel.)

THE MAYOR: Now, the next matter that I will respectfully call the Board's attention to is the non-sale of our $41,000,000 worth of bonds, 4½ per cent bonds, for the purchase of the Spring Valley Water Company properties, and approximately $10,000,000 of the same rate-bearing bonds for the Health work, for unsold bonds for the Highway work and for $2,400,000 for Sewer work. They are 4½ per cent bonds and they are unsaleable.

SUPERVISOR HAVENNER: Also $20,000,000 worth of bonds for Hetch Hetchy, unsold.

THE MAYOR: Yes. Through a splendid introduction I called upon Mr. Louis Strauss of the banking firm of Kuhn, Loeb & Company, one of the largest banking concerns in the United States. And I met all of the partners of Kuhn, Loeb & Company, but my principal conversations, for over an hour and a half, were with Mr. Louis Strauss, one of the members of the firm, who married a daughter of the senior partner of the firm, and one of the outstanding members of the firm. I not only talked to him, but since talking to him I have talked to Mr. George Reynolds, president of the Illinois Trust Company of Chicago, I have talked to Doctor A. H. Giannini, vice-president of the Bank of America, I have talked to several directors, vice-

presidents and presidents of great railroad institutions of this country, and I have reviewed the entire correspondence, by letter and by telegraph, when the Finance Committee of the Board were endeavoring to dispose of these 4½ per cent bonds for the purpose, particularly at that time, of paying Spring Valley for the purchase of that property.

Now, today's situation, after reviewing all the details, all the telegrams, and all the correspondence that transpired at that time, today's situation is, briefly, and Mr. Strauss says, it is worse today than it was then, and there is less demand for bonds. You all know that who is buying or selling stocks, you all more or less look at the stock ticker every day, or look at the newspaper reports on quotations of stocks. You know the break in stocks and you know when the stock rises—you know the gloom that comes over you when the stock market breaks and you know the smile that comes on you when the stock market rises. So every citizen is more or less familiar with money matters today. And you know when money is ten per cent and monied men can get ten per cent, they are not going to buy 4½ per cent bonds. And Mr. Strauss says the condition today is worse now than it was in June. The Bank of England rate has been raised to 6½ per cent. Neither he, nor none of these men whom I have spoken to, can make a prediction on the future rates of interest. We may not have cheaper money for six months or two years, that is, nobody can tell. Mr. Strauss says that, in his opinion, if the city raises the rate of interest, it should not be less than 5 per cent, and in making it 5 per cent we would probably be safe, and he thinks to raise the rate of interest from 4½ to 5, not over 5, would be the wisest thing for the city to do.

Today's rates for large cities are as follows: Long-term bonds of the City of New York, which are considered the best in the world, 4½ per cent bonds of New York, are selling at 4.34, which is a trifle under 4½, but they are the best of all bonds of cities in the world. The Federal Land Bank, backed by the United States Government, is offering 4½ per cent bonds, and they are being sold by the Government on a 5.22 basis. And they are not popular. Our bonds are serials from 1930 to 1970. Next year some of our bonds will fall due. If they are not sold, of course, we do not have to buy our bonds in if we do not issue them. But it is difficult to make comparisons. He says that the credit of our city is better than Los Angeles, and Los Angeles has bonds rating 4¾ per cent, due in 1936 to 1945, and are offering at 4¾ per cent and not saleable at that rate. He says the easiest course to pursue would be to try and induce Spring Valley—which, of course, they will not do—to take over our bonds at par and then permit their New York bankers to take the money, at so much per cent per month, and those bankers speculate on it on deposit until the difference of interest is absorbed. Spring Valley has a contract with the city to take our bonds, or $41,000,000 cash, and we cannot give them $41,000,000 cash and we cannot sell our bonds, at 4½ per cent, to give them cash. And if you will bear in mind that our right to purchase Spring Valley expires in 1932, and we have to do something and take over those properties, because we will have the water from Hetch Hetchy flowing in here before 1932.

My respectful suggestion to the Board is that my report, together with a statement I have from City Engineer O'Shaughnessy, which shows that, if we could sell our bonds on a 4½ per cent basis, our income from the receipts of water payments would be $3,840 a day profit. If we could sell our bonds at 4.80, which Mr. Strauss thinks we might possibly sell them at 4.80, our loss today, in not doing it, is $3,500 a day, which is going into the pockets of the Spring Valley. And if we had to pay 5 per cent interest we would make, after paying the interest, $3,280 per day. Now, it is only a natural thing that the properties of the Spring Valley are not being kept up in the shape that we would keep them up if we owned the property. I know roads

have been washed out, I know fences are down, I know that as long as the income, according to the terms of the purchase, goes to Spring Valley, it is only natural that they will not spend any more than they have to, to keep the properties up. So that the longer we put off the day of the purchase of the properties, the more it is going to cost us to put them back into the first-class condition in which they were when we purchased them. And, furthermore, the so-called "railroad interests", the Crocker and Winship estates are selling the land which they have at the headwaters of Calaveras, on the northern slope of Mount Hamilton, and acquiring all that property up in through there for hunting purposes, and it is a difficult proposition to keep the people off of the properties owned by the city, for which we have not paid the money. And I respectfully suggest and encourage the Finance Committee of the Board to take this report from the Mayor, together with the list of all bonds which are being sold and offered for sale on the New York market today, from all of the cities of the United States which are being offered for sale, make comparisons of them and try and arrive at a solution of this problem, so that the city will acquire those properties at as early a date as possible. The extra rate of interest between 4½ and 4.80 is a loss of some $300 a day to us, but we are losing $3,280 a day by not even paying the 5 per cent to acquire those properties, and get them as quickly as possible. And I offer this in as friendly a spirit as I can, as my findings and the result of my investigation from the parties whose names I have given in New York, in Chicago and others I have talked with, because it has been on my mind constantly. What is the pleasure of the Board?

SUPERVISOR KENT: I move reference to the Finance Committee.

SUPERVISOR ANDRIANO: I move the report of the Mayor be referred to the Finance Committee.

THE MAYOR: If there are no objections? (Bringing down the gavel).

SUPERVISOR McSHEEHY: May I ask that copies of the report be sent to every member of this Board, of your report?

THE MAYOR: Do you think the stenographic report that I am trying to make, as clearly as I can, will be satisfactory?

SUPERVISOR McSHEEHY: Yes, and you are going to refer the report to the Finance Committee?

THE MAYOR: I am going to pass this over to them because I have it all in writing.

SUPERVISOR McSHEEHY: I simply ask that a copy be sent to every member of the Board so that we can all read it.

THE MAYOR: I will tell you what I will do, I will pass to the Clerk, the reporter, all the data which I have and he can make you up a full report of everything.

SUPERVISOR McSHEEHY: I would like that the same report be sent to every member of the Board. I think every member of the Board should have the same report, your Honor.

THE MAYOR: So ordered. I would then respectfully request the Finance Committee to ascertain, from the city attorney, whether or not a majority vote of the electors can raise the rate of interest from 4½ per cent, not to exceed 5 per cent, because the legal rate in the Charter is 5 per cent. It has been done in the past, raised by the majority vote, from 4½ to 5 per cent, and if the Finance Committee can ascertain whether it can be raised from 4½ to 5, it will simplify the matter because we cannot have a Charter amendment until the Fall of next year.

SUPERVISOR MARKS: After the middle of next year.

THE MAYOR: Mr. Chairman of the Finance Committee, will that be referred to your Committee? Judge Sullivan asked me to ask you to refer that to the city attorney. He is going to speak to him about it, too.

THE MAYOR: Now, I will take up the question of the Mills Field. When I was in Washington I made inquiries as to whether Mr. Ogden

Mills was in Washington at the time and I was told he was not. So knowing that I had to go down to New York, and to give your message, which you asked me to give, to Mayor Jimmie Walker of New York City, I tried to find Mr. Ogden Mills in New York, but his office said he was in Washington, and I telephoned him from Doctor Giannini's office in New York to Washington and he said, "Mayor, I will be very glad to see you on Thursday morning at 10:30 o'clock." While I was talking to Doctor Giannini, Doctor Giannini told me that Mr. Ogden Mills is the under-secretary of the Treasury, under Secretary Mellon, and Doctor Giannini's opinion of him is that he is one of the ablest financiers in the country, and was selected by Secretary Andrew W. Mellon to be the under-secretary of the Treasury. He said he is eligible for the Presidency. He was defeated for the governorship of New York in the Democratic landslide which elected Al Smith governor of New York the last time. He is likely to succeed Secretary Mellon and Doctor Giannini believes that, if he wants to, he can have it, because there is no man better thought of in New York, in every conceivable form, than Mr. Ogden Mills. And with that fine recommendation of him, which I think you all know, I preface the report which I am going to make to you about Mills Field.

I wrote these notes at Mr. Mills' desk in the Treasury Building at Washington so that I would make no mistakes. I met him there at 10:30 on the morning of October 3rd, and he had brought from New York Mr. Arthur Hartman, Supervisor of all their California properties, and also General Manager of the Mills' Estate of New York, and he is their New York representative. The conversation which took place was between Mr. Mills, Mr. Hartman and myself. Mr. Mills said that he has no personal knowledge in regard to the negotiations regarding Mills Field. His father, Ogden Mills, senior, whom you know was the only son of D. O. Mills, and Ogden Mills, Junior, is the grandson of D. O. Mills. He said that his father, Ogden Mills, Senior, told him that the low lands of the Mills property should be reserved for industrial purposes. Mr. Mills was out here last winter. Everyone out here told him that there was no understanding between his father or anybody else about giving the field to San Francisco. They were very glad, however, to let the city have it for experimental purposes, as he put it, at a nominal rent. He said there is nothing anywhere to show that the Mills Estate ever had any intention whatever of giving this property to the city. No one has ever heard of such a thing or even of intending to sell. He says he did see Mr. Dunnigan last winter and passed the time of day with him. He said he never made any promises to Mr. Dunnigan, never indicated he was prepared to give the property to the city; it is not his to give; it belongs to the Estate of Mills, Incorporated, a California corporation, owned by the Mills Estate of New York, and all of the stock is in trustees, of which he is one. Ogden Mills, Junior, the one I was speaking to, is President of the New York corporation, and is acting for them. His relationship is that of a trustee. They are taking the position, in the absence of convincing evidence, that there was an agreement, or an implied agreement, that it is his duty to administer this property for the benefit of the beneficiaries. If he can find anywhere any evidence that his father, directly or indirectly, had made a promise, why, naturally, it would be the inclination of the family and his aunt, Mrs. Whitelaw Reid, that they would live up to that promise.

Now, he told me this, not for publication, but to show their keen interest in this matter, he said that, on the deathbed of his father, he indicated he would have liked to have had the opportunity of changing his will to add another one and a half million dollars to the cathedral here, and for other benefactions, and that Ogden, Junior, and his sisters have made the request good, although it was not in the will. He says his father, Ogden Mills, never said a word to him about giving this property to San Francisco, neither did Mr. Ogden Mills, Senior, when

returning to New York, after making the lease. And everyone who does know something about it tells Mr. Ogden Mills, Junior, that it was never the intention of Mr. Ogden Mills, Senior, to give it to San Francisco, or to sell it to San Francisco for airport purposes; in fact, he never told his son anything about it, except that the land was to be reserved for industrial purposes.

Now he said, "Mr. Mayor," he said, "My grandfather purchased that property and told his son to keep it for industrial purposes. As the City of San Francisco grew," he said, "we believe that the future of San Francisco is going south and we think that the people of San Francisco will benefit far greater by industrial enterprises down there than by having an airport, because," he said, "you have two railroads and possibly another one." He said, "We are keeping up those dykes, we are preventing the water from overflowing Mills Field, we are preventing the water from coming across on to the highway, and we intend each year to spend a lot of money developing that property for industrial purposes because we have faith and confidence in the City of San Francisco."

I spoke to them about acquiring it. He said, "Now, the land is not for sale, but," he said, after I said to him, "Now, I want you to give thought to the City of San Francisco, which, like every other city, wants an airport and needs an airport. We want you to give thought to this matter, that it was D. O. Mills, your grandfather, that made his fortune out in the West, and that it was he who came to the rescue of the Bank of California when it suspended payment, and took up the Presidency. I want to tell you that we have a deep regard for the name of Mills. I want to tell you that I was raised on a salary, my father working under your grandfather in the Bank of California for 50 years; that we all out there have a great regard and admiration for the honorable name and the honored name of D. O. Mills, and I do not want to see you get into any position of dickering with the city about whether the city should acquire it or whether it should be continued or whether it should be reserved for industrial purposes, or whether it should be acquired, as the city wants it, for an airport." I pointed out to him that we had lost the Zep coming into our city because we did not have the money to put on our own land a mooring mast to have the Zep land in San Francisco, and therefore it went to Los Angeles, and yet Doctor Eckner said that the finest weather he had on the whole trip was the weather he had coming through the Golden Gate and flying over the City of San Francisco. And I said, "I do not want you to get into any position where anybody can criticise you for handling an estate whereby you are trying to prevent the city acquiring something which we named after the most honored names in the history of the City of San Francisco." He said, "I am not committed to sell the property, but I want to think it over a lot more. The city can do one of two things: It can make an offer for the property." (He has not made up his mind to sell the property for an airport to the city.) "Or, we might work out an agreement that, if the city takes over the airport, and we agree upon a price, that we can make an agreement that, if the city ever gives up the airport in the future, we will be permitted, in an option, to take the property back at the price the city pays us for the property," which is only right. And then he said, "That is, if we reach an agreement." He said, "It is difficult to arrive at a figure without condemnation." And they do not want condemnation because of the difficulty of ascertaining a value. He said they are holding it for the potential values, and as far as he knows it is very valuable for industrial development. I said, "It has been stated that you were holding the property for a thousand dollars an acre." He said, "That is not true." He said, "I have never mentioned the price to anyone, certainly not, none of the property is for sale." I asked him, "Would you set a price or do you prefer condemnation, and would you feel hurt if the city started

condemnation proceedings?" Mr. Mills said he would resent condemnation of anything except the present field and its present area. Then he spoke to me about the dykes and the two railroads that were going in there and its future value to the city, the great payrolls that would come to the city, the great industrial plants that would be there like they are out in New York, fourteen and fifteen miles from the city, and out of New York they run a hundred miles. He pointed out that a great industrial city would make that land far more valuable to him for industrial sites. Of course, that was his opinion, and I was after the airport.

Now, my summary of the whole thing is that we should have been careful about expending $300,000 on an airport on which we had a lease which expires in March and which will have to be renewed upon the request of the city. And we have got a situation there that is difficult to handle. I am speaking to you frankly now. I see the whole situation. Now, Mr. Mills said, "Let me think it over, because I am not prepared to reach a decision at this time." He said, "We have got two grandchildren in the family now, they were born in Ireland, two fine little Irish children, and they have to be considered." He said if this were his own property he would do everything for San Francisco, but he is a trustee and he must be guided by his associates. Now, talking informally, he said, "I want to talk it over with Mrs. Whitelaw Reid, my aunt, and yet I do not want to make any commitment." Mr. Ogden Mills' share of the estate is only one-third of one-half of the entire Mills Estate, Incorporated, of this particular property. It was first D. O. Mills', it was second, then, the father and Mrs. Whitelaw Reid, and now it is the grandson of D. O. Mills and two sisters, and they have got three children on one side and two on the other, and therefore he has but one-third of one-half interest in this property. He is simply acting for others in this matter. The finale was that the present Mills Field, in its present boundaries, that is, what is included in the lease, under no circumstances will he go beyond this area.

Mr. Arthur A. Hartman, General Manager of the Mills Estate, Incorporated, in New York, which owns the property, comes out here twice a year. He has never discussed this matter with anybody except Mr. Ogden Mills, Senior, and said it was only a temporary measure. He has never met or knows a Supervisor, Mr. Arthur A. Hartman. He thinks their attorney, Mr. Duncan McLeod, of San Francisco, Mills Building, made the lease, and the lines were run by the engineer, A. Torregano, Mills Building, San Francisco. Mr. Mills, Senior, handled the whole matter in San Francisco himself. Mr. Mills, whom I spoke to, hopes to get to San Francisco this winter. Mrs. Whitelaw Reid would be in New York today, or tomorrow, and after talking with her, he is going to write me. Now, that is the story and the full report of my interview with Mr. Ogden Mills regarding Mills Field. And I found him just what Doctor Giannini said he was, a fine genial sterling gentleman, whom, if it was his, I think would gladly give it to the City of San Francisco, in the name of his grandfather. I think that he is impressed with the situation. He knows we have $300,000, or thereabouts, in that property. He knows we cannot keep on putting money into a property that we have not a thread on except a lease. And I really think, from the bigness of the man, that he is going to try and do something and find some way to help us solve this problem, and I think he is kindly disposed to do it, if he can, subject to the other trustees, along those lines. Gentlemen, that is my report to you about Mills Field.

SUPERVISOR SHANNON: Mr. Mayor and Mr. Kent, I am going to appeal to Mr. Kent to yield, to permit me to answer in regard to the matter of the Golden Gate Bridge District, because that was one of the first matters that the Mayor reported upon,and I want to recite, briefly, a history of the Golden Gate Bridge and the Highway District, with

which the Mayor himself is quite familiar. The formation of the Bridge District was had at a meeting held in Santa Rosa, some nine years ago, which you and I attended together.

THE MAYOR: Yes.

SUPERVISOR SHANNON: The appointment of trustees for the formation of a district. The meetings in Santa Rosa and in San Francisco were held, and finally, by action of this Board, the request was made of the War Department, and I wish to read, for the record and for your benefit, a letter from Dwight P. Davis, Secretary of War, under date of Washington, December 20, 1924, addressed to the Chairman of the Commercial Development and Transbay Bridge of the Board of Supervisors of San Francisco. "San Francisco, California. Dear Sir——"

THE MAYOR (interrupting): What is the date of this?

SUPERVISOR SHANNON: December 20, 1924. From Dwight P. Davis, the Secretary of War:

"Dear Sir: Under date of March 21, 1924, you applied, through the District Engineer, for approval of the plans of a bridge to be constructed across the Golden Gate, San Francisco Bay, in behalf of the City and County of San Francisco and the County of Marin, State of California. Your application has received full consideration by the War Department, and I am pleased to inform you that the project as a whole meets with my approval, subject to the following conditions: Since this bridge connects two military reservations there was a military question involved which prevented it being handled in the ordinary manner, and final action taken by the Chief of Engineers and the Secretary of War only, as would have been the case if the question of the interest of navigation alone had been the only one to consider. The objections to the bridge, from the military point of view, can be eliminated if the City of San Francisco and the counties interested in its construction will bear all the expense connected with the moving, rebuilding and replacing of elements of the defensive and other military installations damaged by such construction; will bear the expense of the construction and maintenance of approaches to the bridge; will give the United States complete control over the bridge in time of war; will permit government traffic at all times free of charge; will make provision for wire and pipe lines on the bridge for War Department use free of charge, and will subject the construction of the bridge and its approaches, so far as such construction relates to the military defenses of the harbor and the military reservations affected, to the direction of the Secretary of War or his authorized representative, the district engineer, first San Francisco district."

Please note these words: "It is understood that you will proceed with your plans and will submit application for the definite permits necessary before actual construction can commence. These are: 1. Approval by the Chief of Engineers and the Secretary of War of detailed plans of the bridge. 2. Permits from the Secretary of War for rights of way across the military reservations, Fort Baker on the north and the Presidio, San Francisco, on the south. 3. A permit for the temporary occupancy of certain areas on the two military posts necessary for construction activities. The application for the approval of the plans for the bridge should be submitted to the U. S. Engineer, office, First District, San Francisco. The other applications may be submitted direct to the Assistant Secretary of War. All applications should be made for a definite certain project, and it is suggested that the exact spot of the bridge and the location of approach roads must be determined after consultation with the Commanding General of the Ninth Corps Area, before applications for the rights of way and the temporary use of land are submitted, in order that the exact metes and bounds of the territory required may be given. When these applications are received they will be given immediate attention. Very truly yours, Dwight P. Davis, Secretary of War."

Now, Mr. Mayor, the War Department cannot issue a permit to an unincorporated association. The District is now incorporated and is about to apply for a permit which the War Department, informally, said it would grant. The reports of the engineers and the report of borings, locations and approaches are about ready, and the application will be made by the incorporated body.

THE MAYOR: Now, Mr. Shannon, I am glad you read that. I myself have always been under the impression, and have always known, in fact, that we had a permit. But that permit there said, to be approved by the War Department. How do you know or how do I know but that the new War Department may have changed its mind? Secretary Ballinger of the Department of the Interior changed his mind on a permit granted to this city for the building of a dam and the impounding of the Hetch Hetchy water in Hetch Hetchy and ordered us to show cause why the permit should not be revoked, and, if you remember, for two sessions in Congress we had to fight for the Garfield permit. We could not get Ballinger to change his mind. We then went to the Congress of the United States. You remember the fight with all the nature lovers throughout the United States. And we finally got our Act through Congress. Now, the first thing to do is to find out if the present Secretary of War, Mr. Good, and his officers in command, are still as friendly to our permit as was Mr. Davis. And I think I am bringing you home a good piece of information so that your committee can go to work and find out why the Secretary of War and General DeKyne appeared to be unwilling to acknowledge that a permit exists. That is as I see it, and if that is the case, it is a repetition of the Interior Department, from Garfield to Ballinger, changing its mind.

SUPERVISOR STANTON: May I say this: At the last meeting of the Board of Directors—you did not happen to be present—we applied for permission to make the borings. That is to be done. That has been applied for. And we feel, Mr. Mayor, that the matter has so far advanced that we will be able, when we receive the sanction of the War Department, or of the authorities of the Ninth Corps Division, I believe they call it, being heartily in favor, we believe that we will have the necessary information, the permit to advertise for bids on the 28th of this month. That is the present program. The authorities of the Ninth Corps Division are helping Mr. Strauss with the survey through the Presidio, a tentative one. Everybody around San Francisco, in the military end of it, seems heartily in favor and has promised the Committee and the Engineers every possible assistance. For instance, in the matter of some of the guns that might have to be removed, they have gone so far as to tell them that at this day and date some of the guns that they felt at that time would have to be removed, at the cost of the city, would be put out of service entirely on account of long range guns, and they feel that the batteries are not at this time needed. However, I think that there may be some truth to the statement and foundation to the statement that there is not a permanent, a final permit granted. I was talking to the City Attorney a minute ago and he said no permit is granted until you get the detailed specifications. And they asked for that right in the tentative permit, that before a permanent permit will be granted that the Board of Engineers, or the District, submit the permanent location, and they do that, where it crosses navigable waters, to make sure that the footings will not be placed in the way of navigation. We were assured, on our visit to Lime Point and Fort Point with the engineers, that it made little difference to them whether the footings were moved back or forth a hundred, two hundred or three hundred feet. One of the engineers said that he saw no objection to possibly removing the footings right back on the mainland and keeping it out of the channel on the other side.

So that the District is in very good shape. Mr. Filmer, a short time

ago, was in Washington and visited the Department there and brought a report to us that they were going to give every cooperation possible. And if they said that they had not given a final permit, that possibly is all right, but I do not think that there has been any objection; at least, we have heard no objection. And I will say, Mr. Mayor, that they have never rejected the present permit. I do not think that the War Department would do that without first giving notice to those whom they granted it to. So, really, there is nothing to be alarmed at, but to the contrary I think that we are going to have the aid and assistance of the Department. We have, at the present time, as far as we have gone with the War Department, as represented here. We have been promised the aid and assistance of the Railroad Commission. I was with the engineer one day when we spoke to the Captain in charge of the Engineering Corps and they said that they would be pleased to cooperate and give any assistance possible and put the men out making surveys, that it would give them a lot of practice, for the tentative roads through the different reservations. There will be, on the other side, three different proposed road surveys. Costs will be gotten up and presented. All of those facts have to be first acquired and put in form to present to the War Department before they will give the final permit, and I do not think there is any question, we seem to have every cooperation that anybody could ask for.

SUPERVISOR SHANNON: I just want to add to that, Mr. Mayor, that the members of the Board of Directors have, at all times, understood and said that we have a temporary permit. That is all that can be granted at the present time, owing to the conditions that exist. And since you made your report I got Mr. Harlan, the attorney for the District in San Rafael, on the telephone, and he said it is the only way that we could proceed under the law, is the way that we have proceeded. Have you attempted to discuss the matter with him since you returned?

THE MAYOR: I only got in at 1:00 o'clock this morning, I did not have a chance. And I would not have a chance to talk to the Board again until Thursday, when I hoped to call you in special session. I am simply doing the best I can to give you anything that I possess on the subject, because I hope the bridge is built.

SUPERVISOR SHANNON: They did not call your attention to this letter of 1924?

THE MAYOR: I knew you had a letter something similar to that.

SUPERVISOR SHANNON: I mean, did they show it to you in the War Department when you were there?

THE MAYOR: No. I told them that we had a permit to build the bridge. Well, they thought it had lapsed; in fact, other army officers have said the same thing, and I think it is sufficient for your attorney and your committee to just look into the statements which have been made to me regarding this bridge, so that you will be surely safe on what you are doing and get that permit in good shape.

SUPERVISOR SHANNON: I would like to request that a transcribed copy of the Mayor's statement be made and forwarded to Mr. George H. Harlan, attorney for the Golden Gate Bridge and Highway District in San Rafael.

THE MAYOR: If there is no objection, it is so ordered.

SUPERVISOR KENT: If your Honor please, if I may just ask you to accept my sincere thanks for your deep and kindly interest in the Mills Field matter. I believe that San Francisco is to be congratulated at your having paid a visit to Mr. Mills and I believe that your personality, coupled with your official prestige, has made quite a profound impression upon the owner of that property, and I feel satisfied that your visit has opened the way for pleasant negotiations.

THE MAYOR: I thank you.

THE MAYOR: It is too late today for me to take up with the Board the question of the War Memorial trustees. I would like to call the

Board together or have the Board take a recess until Thursday afternoon, say at two o'clock, after the Mayor of Berlin leaves, when we can sit down here and discuss the appointments for that project.

SUPERVISOR McSHEEHY: May I ask, Mr. Mayor, we just agreed that a copy of your report in reference to the bridge matter be tendered to Mr. Harlan, I believe that is the name of the attorney. May I ask that a copy also be tendered to our Clerk as a record, so that, if any of us wish to at any time refer to it, we will have it here?

THE MAYOR: So ordered.

SUPERVISOR HAVENNER: Do I understand that you want to have a special meeting of the Board to discuss the War Memorial trustees? May I call your attention to the parliamentary situation? There is nothing before the Board in regard to that.

THE MAYOR: Then I will call the Board in special session for two o'clock on Thursday afternoon to discuss appointments for the War Memorial, because I am going to present each name singly and have the Board vote on each name, so that we will find out whom you are for and whom you are against, that is all.

SUPERVISOR HAVENNER: I will have to raise a point of order at this time, and I will be obliged to raise that point of order. The Board is not, under the Charter amendment—and I consulted the City Attorney at the time—the Board is not required to vote seriatim, and I do not feel that that would be fair. The Charter specifically provides that the Board has the right of confirmation of denominations, not individually. The Board made itself very clear on that subject at the time that it took its vote. We do not object to any individual. Solely on the basis of the action previously taken by the Board, I will have to raise a point of order against any proposition to ask us to vote seriatim.

THE MAYOR: The point of order is not well taken, because voting on any matter seriatim is provided for in the Charter, for the budget, and everything else. The Mayor is going to take full advantage of passing every single name up, because there is no hope of getting unanimous consent on every name presented by the vote. We are going to have a seriatim vote on each name.

SUPERVISOR HAVENNER: I will ask that the City Attorney be requested to be here and advise us, as he did before.

THE MAYOR: We will have a vote on every name.

SUPERVISOR HAVENNER: I do not think we will.

SUPERVISOR GALLAGHER: The Streets Committee meets Thursday; cannot we meet some other day than Thursday?

THE MAYOR: I mean, convenient to the Board. I cannot have it before Thursday, because the Mayor of Berlin arrives tomorrow morning and will be here until Thursday morning, I understand.

SUPERVISOR GALLAGHER: If the Finance Committee does not object the Streets Committee could meet Friday. We have the Bay Shore and Redwood Empire matters before us. Wednesday we have a district highway meeting. We could meet then. But Thursday, I would ask for you not to call it on Thursday.

SUPERVISOR HAVENNER: At this time, in view of your announcement that you desire to call the Board in session to vote upon your nominations, I desire to call public attention to the fact that I think the Board was not treated entirely fairly by your Honor, perhaps not intentionally, in connection with the nominations for the War Memorial. You called the entire Board into your office two months ago, I believe it was, and submitted to us a partial list of the names, which we discussed privately. It was at your invitation, you stated at that time that you did not desire, and that you did not believe that the Board desired, to bring this question to a public discussion and to have the issue of personalities raised in connection with the nominations. You presented to us a partial list of proposed nominations at that time, to which, individually, I think there was no objection raised.

You told us that before you submitted the nominations, you desired to confer with us again. I desire to call the attention of the Board now publicly to the fact that we never had the opportunity to discuss this matter with you again, and that we have had no explanation of why we did not have that opportunity. The Board entered into this matter in good faith, hoping that the issue of personalities could be avoided, through the conference which you yourself, your Honor, suggested.

THE MAYOR: Yes.

SUPERVISOR HAVENNER: And we were not given the privilege, which you voluntarily proffered us, to discuss the entire list again before it was brought before the Board. Therefore, I want to submit to you that I think your proposition now, that we publicly discuss the issue of personalities, which we have officially disclaimed as any part of the reason for our refusing to confirm your list of nominations, is not in keeping with the suggestion that you made to us yourself.

THE MAYOR: But, Mr. Havenner, the last time I called the Board in—I know it was twice, I am not sure whether it was three times or not, but twice, anyway,—nearly every name on the list that I submitted was acceptable to all the members of the Board present in my office.

SUPERVISOR HAVENNER: That is true, but you did not submit to us a complete list. We had the right to expect at that time, and the thing that we insisted upon at the meeting in your office, Mr. Mayor, with all due respect, we merely insisted that, in view of the joint authority that the Charter placed upon us with yourself, that the official request that we had made, that a majority of the men who were to be nominated should be veterans of some department of the military service of the United States, should be complied with.

THE MAYOR: Well, all right, Mr. Havenner, there is nothing incumbent upon me to follow that resolution. I did not sign it, I let it go.

SUPERVISOR HAVENNER: I merely call your attention to it—I say it may have been an unintentional breach of good faith with the Board—but I think that, having publicly assured us—and every member of the Board was present—that we would be consulted again before you subjected this list to a public discussion, that it is not now fair to thrust upon us the issue of personalities.

THE MAYOR: Well, I refuse to go through any more executive conferences in my chambers and be turned down on some of the names that were agreed upon by every membr of the Board present in my chambers. And I am not going to go into executive session in my chambers and get nowhere. The names that were agreed upon have been turned down and the Board has permitted, as near as I can find out while I have been away, slurs to be cast upon the names of some of those that I have nominated.

SUPERVISOR HAVENNER: That is absolutely untrue. I must deny it, it is not true. This Board, officially, went on record as saying that our sole objection was that you placed this Board in the position of repudiating its public pledge to the veterans of San Francisco, that we requested that a majority of those names be veterans. And it is inconceivable to me, Mr. Mayor—I regard every one of your nominations as worthy individually—and I will not be placed in the position of voting for one and voting against another. I serve notice now that I will not be placed in that position. But, Mr. Mayor, it is inconceivable to me that there are not others as worthy among this great army of men who offered their lives in the World War and the wars which have preceded it. And we merely requested——

THE MAYOR (interrupting): There are.

SUPERVISOR HAVENNER: (continuing): —that a majority of the nominations be men who have rendered that service to the United States.

THE MAYOR: If I had the appointment of all the men who served

the country, I would appoint every one of them, but you drew the resolution limiting me to eleven.

SUPERVISOR ANDRIANO: I think that there is nothing before the Board at this time on this particular question, and I am going to make a motion that, if your Honor desires to present this matter before the Board, or if there is going to be any discussion at all, that it should be made a special order of business for some other day. I make a motion that three o'clock next Monday be set aside for that purpose.

SUPERVISOR HAVENNER: There is nothing before the Board.

SUPERVISOR ANDRIANO: There is nothing before the Board now.

THE MAYOR: I have had notice served on me this morning that many of those whom I have appointed are going to resign, that is all, and I cannot get anywhere with the Board in my chambers discussing names because you cannot agree on eleven names, all of you put together, you could not agree on eleven names, and I say that with all kindliness, I cannot do anything.

SUPERVISOR HAVENNER: I rise to a question of personal privilege with regard to that statement. We did not solicit the invitation to come to your office. We were invited by you, and it was your suggestion, and yours alone, that we come to your office,——

THE MAYOR (interrupting): Yes.

SUPERVISOR HAVENNER (continuing): —that we come to the office, for the purpose of discussing with you in private, before this matter was submitted to public discussion, the various names that you had in mind. And you submitted to us a partial list. To none of the individuals did we raise any objection.

THE MAYOR: I submitted all but one.

SUPERVISOR HAVENNER: There was no agreement at that time, and it was at your specific request, Mr. Mayor——

THE MAYOR (interrupting): It was.

SUPERVISOR HAVENNER (continuing): ——that we should meet with you again.

THE MAYOR: Yes.

SUPERVISOR HAVENNER: Now, it is not fair, Mr. Mayor, to get up here now before this audience and say that you won't consider a further private consultation in your office. We did not suggest that, you suggested it, sir.

THE MAYOR: I won't extend the invitation again. I think I was paying the Board a distinct compliment, but if you do not want the invitation, I won't extend it, we will have it here.

SUPERVISOR HAVENNER: For one, I would like to have the privilege again of discussing it with you.

THE MAYOR: I have no objection to having it here.

SUPERVISOR GALLAGHER: I would like to say a word, Mr. Mayor.

SUPERVISOR ANDRIANO: I rise to a point of order, Mr. President, there is nothing before the Board.

SUPERVISOR GALLAGHER: The Mayor has made a statement.

SUPERVISOR ANDRIANO: I rise to a point of order as to the Mayor's statement. There is nothing before the Board. If the Mayor desires to call a special meeting, it is his privilege, but there is nothing before us now, and I do not think it is the proper time to enter into any discussion on the War Memorial. Let us have it out at a special session for that purpose. If you desire to make a statement you can make it at that time. I rise to a point of order.

THE MAYOR: Would you object, Mr. Gallagher, to a special meeting?

SUPERVISOR GALLAGHER: I would not object to a special meeting, but I suggest that, in view of the fact that discussion has been permitted and I do not intend to go into it very deeply, I merely

intend to make a suggestion that might be helpful. I have to wait, however, until you rule me out of order, on your own invitation.

THE MAYOR: I do not object to him talking, Mr. Andriano, if you do not.

SUPERVISOR GALLAGHER: I would like to say this in a helpful spirit: I wish to say that I was not at the meeting in your office, you know I was not in town, but you submitted a very fine list of names, there is no question about that, and it was so stated here by nearly everybody who spoke. The issue is, however, as to whether the Board and yourself can get together on this matter so that a majority—I do not care if anybody has a victory in this thing or not, it does not matter to me—so that a majority of these directors might be veterans of some war. Now, that is an issue, and you could help it out very nicely——

THE MAYOR (interrupting): Whom am I going to throw off?

SUPERVISOR GALLAGHER: I would not use that expression. Why not take Mr. Fleishhacker? I am very sure he would be quite willing if it would help the situation. He is on, I think, four or five different boards of the city now. You could say, "Would you object if I took your name off for some one of 40,000 veterans"—I do not care who it is. And I happen to know, Mr. Mayor, that some of the gentlemen that you named have themselves stated, personally, that if it would solve the situation—it is not a question of getting off—they would be tickled to death to get out of the work involved. And I really think that in view of the fact that you would calm this community in one sense, and, anyhow, that you would get something started in the other, and that if we won't let our own pride get too much in the way, you can solve this between now and the time we next meet. Now, here is the situation you will face when you come to the Board: You state that you are going to ask us to vote individually on every name. What a complexity and with what result? Now, if you force that issue, the answer is the same. If you could compel us—which you cannot, by the way, you will lose in that matter, I would like to predict to you now—but if you could compel us to vote on every single name, why, the answer is that to sustain the record we would vote down every single name. And I would ask you not to force that issue for this reason: It is the Board's dictum that when a matter is presented—and it makes its own rule on the subject and you and I cannot change it—that if it desires to vote on names or matters seriatim, it is within their decision. And what will you have here? You will have a war of the War Memorial, as we Irish say, a sort of a Donnybrook affair, and you will get nowhere. Now, I think you really want to get this Memorial started, and I would like to have you undertake the legal job of switching a couple of names. I think, if you will consult some of the men whom you have proposed, they would tell you that it is their personal view, although they are very grateful for the honor you tendered them, and that it might be made consistent with every ideal you have and yet meet, on all fours, the position, not only of the Board, but of thousands of citizens. And I appeal to you, sir, with no disrespect for the names that you sent in, because they were wonderful people, all of them, and I want to assure you, as did Mr. Havenner, that not one unkind word, not even by those who were permitted to talk from outside the Board, not one unkind word was uttered against any nominee. I think that you will find that to be the record.

THE MAYOR: May I interrupt you and ask you a question: Was a statement made that only two of those whom I had suggested were satisfactory to those who were opposing them?

SUPERVISOR GALLAGHER: If it was made—I think it was only two were unsatisfactory, there was some such statement made and reasons recited, but remember, when that remark was given responsibility, it was the remark of a citizen permitted to address the Board, and, frankly, was put forward in colorful criticism, respectful, not

derogatory, certainly not derogatory. You could take as your witness anybody who sat during that hearing, and it was a hearing in which everything that was said, including that that was said by individuals from the outside, was addressed in the most respectful manner and the names were treated in that form. And if you will examine the record, which was taken down in full, I would invite your particular attention to the fact that everything respectful was said and nothing that could, in any sense, so far as I heard it, and I heard it all, be considered as a slur against any man. And, take Major Kendrick, for instance. I would not sit here for one second—and Major Kendrick was one of the men mostly under fire, I will say—I would not sit here, or anywhere alse, for one second and permit anybody to insult the name of Major Kendrick, although I had to vote against his name as a War Memorial trustee. And I would not listen to a man who would attack the men on that Board or slur them. But there was another issue here and they all went down in that manner, and I would like to appeal to you to see if the Board and yourself cannot get together, and then you will come back here with your nominations and they will be approved.

THE MAYOR: Was there a kick at Sergeant Major Jimmie Hertz?

SUPERVISOR TODD: No, not by anybody.

SUPERVISOR MARKS: His name was not mentioned.

THE MAYOR: I have asked the War Department to send me a record of the 363rd. One of the most brilliant pages of the War were made by the 363rd, our San Francisco regiment.

SUPERVISOR MARKS: Mr. Mayor, his name was not mentioned in any discussion.

SUPERVISOR STANTON: When we left your office, the only time that I was over there, when we left you had some names, not a full list but a tentative list, and you were going to look for some other people. I do not believe that there was a member of the Board—at least, not in conference was there a member of the Board—that I heard suggest anybody's name, and I do not know any member of the Board that has any name to suggest. I am satisfied, Mr. Mayor, if you and the veterans of the wars, or their committee, agreed on a set of names, I am satisfied that this Board of Supervisors, without any further conference, would accept them. But we did agree with the veterans, the Board of Supervisors, that there should be a majority of the Board of Trustees war veterans. We gave that promise to them and we explained that in your office, that we had made the promise, and we sort of must go along with it. And that is just what we are up against. Nobody has any particular kick. We have no fault to find with these War Memorial trustees. It is the veterans, the people who served the country, who would like to have a Board of Trustees, a majority of them people who would be friendly and kindly with them. That is all. We have no further thought in it; we want the thing to go along as harmoniously as possible, and we are willing to work to that end. But after giving a promise to the people who were interested in it, we cannot fall down on that promise.

THE MAYOR: I am willing to yield an awful lot to try to get that work going. I thought I had given you eleven of the finest names we could get here. I will see you sometime during the week.

Regan, representing Bay View Property Owners, was heard with respect to proposed declaration of policy as to garbage disposal to be submitted to the electors at the November election, urging that the City Engineer be requsted to prepare argument to be sent voters in favor of the policy of incineration as against the proposed fill and cover method.

ROLL CALL FOR PETITIONS AND COMMUNICATIONS.

Remarks of Mayor James Rolph, Jr., on Appointment of Trustees of the War Memorial.

THE MAYOR: Gentlemen of the Board, from the morning papers, if the statements are correct, the headlines indicate that the Supervisors are to act on War Memorial Trustees today, and I see in both papers this morning a printed open letter to the Mayor, which I would like to have printed in the records of these proceedings.

The letter referred to is as follows:

"Dear Mayor Rolph:

"In the afternoon papers of Thursday, October 10, and in the morning papers of Friday, October 11, there has been published a statement quoting you in reference to the War Memorial.

"This statement, if you are correctly quoted, contains some gross misstatements of fact, and as representatives of the various veteran organizations in San Francisco, we are compelled to call these misstatements to your attention and to the attention of the public whose opinion you are evidently attempting to sway in reference to a proposed board of trustees selected by you.

"You are quoted as saying that the veterans or the veteran organizations opposed the bond issue providing for the War Memorial buildings. This statement is incorrect. The veterans did not oppose the bonds, but supported them.

"It seems strange to us that such a statement should be made by you, for you should have been acquainted with the facts as they existed at the time this bond issue passed in 1927, and in addition you were personally informed by our advisory committee not many weeks ago that the veterans approved and worked for the passage of the four-million-dollar bond issue. It was only through the efforts of our

veteran organizations and the use of the name of the veterans that the four-million-dollar bond issue was voted by the people of San Francisco for the construction of buildings to be used as a memorial hall for war veterans and other municipal purposes.

"As you should have known, the bond issue was approved and authorized one year before the private board of trustees conceived Amendment No. 32 presented at the November, 1928, election, providing for the creation of a board of trustees to administer the War Memorial funds. This had nothing to do with bonds and the war veterans opposed it. The war veterans opposed Amendment No. 32, knowing that a board of trustees was absolutely unnecessary and that the scheme for the same was drawn up by the private board of trustees that had been maladministering this whole memorial proposition and had failed to build it for a period of eight years.

"We recognize that this measure was not proposed in good faith by the private board of trustees, and therefore we opposed the enactment of the legislation. Our suppositions in reference to this were confirmed at a public meeting held after the approval of the amendment, which was adopted by just a few hundred votes, and only because the people of San Francisco were not given the opportunity to learn the truth of the matter. Then we forced from Mr. John Drum, chairman of the private board of trustees, an admission that he would not permit the transfer of assets from the private board of trustees unless a public board was created of which he would approve, and necessarily which he would dominate.

"In order to insure such a controlled board, the private board of trustees, after this measure had carried, requested you to delay your appointments to the board of trustees and thereby further delay the construction of the War Memorial. You followed their wishes and delayed the project.

"This private board of trustees had this memorial project in hand for a period of ten years. They originally asserted that $2,500,000 would be sufficient to complete the War Memorial. They then increased the sum to $6,500,000, and now, having spent hundreds of thousands of dollars in waste efforts, they bring forth plans which could only be carried out by the expenditure of more than $8,000,000, or $3,000,000 more than has been voted or subscribed for such purpose.

"The private board of trustees must be charged with gross inefficiency, waste and mismanagement. And yet you have selected four members of that private board on a new board of trustees when those four men permitted one man to dominate the private board of trustees and did not have enough public interest to find out for themselves what was happening in the private board of trustees.

"We suggest to you, as Mayor of San Francisco, that you, representing the citizens of San Francisco, demand of the private board of trustees a full accounting of the funds placed in their hands. Then maybe you will find out why they borrowed money from and paid interest to a bank controlled by one of the trustees when they had hundreds of thousands of dollars on deposit which could have been used without making a loan. You might also find out what banks benefited by the deposit over a period of years of the hundreds of thousands of dollars that had been subscribed by the people of San Francisco and whether or not those banks are controlled by members of the private board of trustees.

"If the people are indignant, as you are quoted, then they must be indignant about the failure of the private board of trustees to carry out their trusts and make a proper return and accounting to the people of San Francisco for the money which was placed in their hands.

"If they are indignant, they must be indignant about the waste of funds that has characterized the administration of the War Memorial project.

"If they are indignant, they must be indignant about the attempt to thwart the will of the people of San Francisco by depriving the war veteran organizations of proper meeting places and attempting to give them as little as possible of the use of the funds voted or subscribed by our citizens.

"We who served this country in the war are just as desirous of seeing the War Memorial completed as you are, but we want a War Memorial that will be built by a group of men in whom every citizen of San Francisco may have the utmost confidence and which will not leave in the minds of the ex-service men whose deeds brought forth this War Memorial project, a feeling that their service has been used to foster a private project so that the true desire and wish of the people of San Francisco has been defeated.

"There has been delay in the matter of constructing the War Memorial, but that delay is chargeable to the inefficient private board of trustees from whose ranks you have seen fit to select four of the members of your present proposed board, and to yourself in failing to propose a board prior to this time and in failing to propose a proper board of trustees. Do not try to place that blame other than where it should rest.

"You now persist in carrying on the delay by not proposing a changed board of trustees. We would like to remind you that when the President of the United States submits a name of a citizen, even for an office as exalted as that of a member of his cabinet, for approval by the United States Senate, and that name is not confirmed, the President does not try political means of securing confirmation of the same name that was rejected, but he submits a new name. Do you believe that you should have any different attitude than the President of the United States?

"The Supervisors have acted within their rights as given to them by the citizens of San Francisco when they refused to confirm your first appointments. The ordinance enacted did not contemplate that they would necessarily accept your appointments without the exercise of independent judgment.

"Unless you submit to the Board of Supervisors another board of trustees you are the only one who can be charged with delay, and that board of trustees must necessarily be different from the one that you previously submitted.

"We also call your attention to the fact that the demand of the veterans that a majority of that board be composed of veterans is a proper demand. In the first place, a decent respect for the deeds of the men who served this country would have prompted you to have appointed a board consisting entirely of veterans, and so pay honor to such men during the short lifetime that they might have.

"In the second place, the course of the War Memorial in the past several years has made it clear that the interest of the people of San Francisco in seeing that a War Memorial was built which would provide meeting places for veterans can only be carried out if a majority of the board of trustees are veterans.

"If a majority is not composed of veterans, then there will be the attempt, as there has been in the past, to subvert the purpose for which money was voted and subscribed, and to make the veterans' participation in the buildings a minor one and not sufficient for their purposes.

"In closing we must repeat that we are compelled to write this letter because you are quoted to have made the incorrect statement that the veterans opposed the $4,000,000 bond issue. The support of the veteran organizations carried the bonds, and their watchfulnses has protected the citizens from an improper disposition of the funds.

"Inasmuch as you have made your statements, not to the veterans' organizations but to the public through the newspapers, we are sending a copy of this communication to the newspapers of San Fran-

cisco so that the public may be truthfully and accurately informed in respect to conditions concerning the War Memorial."

THE MAYOR: The headlines state that "The War Veterans Accuse Memorial Board and Issue Reply to Mayor's Statement." And it goes on further to say: "Declaring recent declarations of Mayor Rolph concerning the proposed War Memorial contained 'gross misstatements of facts' and denying specifically as incorrect a statement attributed to the Mayor that veterans' organizations had opposed the bond issue for the War Memorial buildings, an open letter was addressed to the Mayor yesterday, signed by commanders, presidents and representatives of five veterans' organizations in San Francisco." I am sorry that the veterans did not do the Mayor the courtesy of at least sending him a copy. The letter points out that it was through the efforts of veteran organizations that the original $4,000,000 bond issue was voted in 1927, a year before the private board of trustees drew up Amendment 32 creating a board of trustees to administer the Memorial funds, explaining why the veterans opposed Amendment 32. The letter in effect goes on to charge the original private board with gross inefficiency, mismanagement and waste, adding, "they borrowed money from and paid interest to a bank controlled by one of the trustees." The open letter then follows which I have asked to be included in the proceedings of today.

The letter, which I presume in the Chronicle is a full text of the letter, also appears, in abbreviated form, in this morning's San Francisco Examiner, the headlines of which are, "Rolph Wrong on Memorial Vets Charge. Check on Funds Demanded in Letter to Mayor. Show-down on the Board looms for today. On the eve of a showdown on the entire War Memorial controversy, war veterans of San Francisco in an open letter last night charged Mayor James Rolph, Jr., with bad faith in his appointment of a Board of Trustees. The Mayor's nominations for a Board were turned down by Supervisors. Today Rolph declared that he will demand that the Supervisors reconsider their action and confirm the eleven men he has named. The members of the Board of Supervisors have stated positively that they will decline to confirm the Mayor's nominations. Gross misstatement. With the Mayor and Supervisors at loggerheads here are the accusations leveled at Rolph in a communication addressed to him by the veterans. 1. That Rolph has made gross misstatements evidently attempting to sway public opinion. Chief among these is the allegation that the veterans opposed the War Memorial Bond Issue, when in fact they merely opposed Charter Amendment 32 calling for creation of the Board of Trustees. 2. That the Mayor alone is responsible for present delay, having followed the wishes of the private trustees in refusing to appoint a public board that would contain a majority of veterans and win approval of the Supervisors. The communication was signed by Milton D. Sapiro, Commander of the San Francisco County Council of the American Legion; E. F. Peckham, President San Francisco County Council, United Spanish War Veterans; Harold J. Boyd, Commander San Francisco County Council Veterans of Foreign Wars; Hilary H. Crawford, President The United Veterans' Council of San Francisco; Thomas M. Foley, representing the Disabled American Veterans of the World War, and by H. J. Boyd, H. W. Glensor and James B. Burns, as members of the Advisory Board to Veterans' War Memorial Committee." The letter says, in part, "This private board of trustees had this memorial project in hand for a period of ten years. They originally asserted that $2,500,000 would be sufficient to complete the War Memorial. They then increased the sum of $6,500,000, and now, having spent hundreds of thousands of dollars in waste efforts, they bring forth plans which could only be carried out by the expenditure of more than $8,000,000, or $3,000,000 more than has been voted or subscribed for such purpose.

"The private board of trustees must be charged with gross inefficiency, waste and mismanagement. And yet you have selected four members of that private board on a new board of trustees when those four men permitted one man to dominate the private board of trustees and did not have enough public interest to find out for themselves what was happening in the private board of trustees.

"We suggest to you, as Mayor of San Francisco, that you, representing the citizens of San Francisco, demand of the private board of trustees a full accounting of the funds placed in their hands. Then maybe you will find out why they borrowed money from and paid interest to a bank controlled by one of the trustees when they had hundreds of thousands of dollars on deposit which could have been used without making a loan. You might also find out what banks benefited by the deposit over a period of years of the hundreds of thousands of dollars that had been subscribed by the people of San Francisco and whether or not those banks are controlled by members of the private board of trustees."

Permit me to call your attention to the fact that on May 2, 1927, your Honorable Board, by a vote of 15 members, 3 absent, passed Bill Number 8003, Ordinance Number 7516 (New Series), calling and providing for a special election to be held in the City and County of San Francisco on Tuesday, the 14th day of June, 1927, for the purpose of submitting to the said voters of the City and County of San Francisco a proposition to incur a bonded indebtedness of the City and County of San Francisco to the amount of $4,000,000 for the acquisition, construction and completion of a permanent improvement, to-wit: The construction, completion and equipment of permanent buildings in or adjacent to the Civic Center in the City and County of San Francisco, to be used as a Memorial Hall for War Veterans and for educational, recreational, entertainment and other municipal purposes, and the purchase of all equipment and furnishings necessary for said buildings. All of the terms are set forth in that bill and ordinance, the form of the bond and so forth. After being approved by the Mayor at 10:40 a. m., immediately after you passed it on May 2, 1927, it was submitted to the people and was carried by the necessary two-thirds' vote of the people on the 14th day of May, the date of the election. The only literature that was sent out for the purpose of asking the people of this City and County to approve this bond issue is here submitted and sent out by the Registrar of Voters: "The land for a War Memorial is bought and $1,200,000 cash is waiting in the bank. Thus the people of this city, by issuing $4,000,000 in bonds, will gain a beautiful public project costing almost $7,000,000. The rest is already donated privately or given by the city. This group of buildings occupying two entire blocks on one side of Van Ness avenue, with the City Hall opposite, will greatly beautify our city. The location is ideal, the purpose to commemorate our heroes of the World War is idealistic and patriotic. The utilitarian value of these buildings alone merits their construction. One of them will be the Veterans' Building housing all the veterans' organizations in San Francisco. It was to give these splendid organizations a permanent headquarters in the name of the public which honors their deeds that the War Memorial fund originally was lost. The other building will contain San Francisco's long-needed Symphony Hall and Opera Auditorium. Originally this was planned for a less advantageous location at the eastern end of the Civic Center. We have one of the finest symphony orchestras in the United States, and it should have a fitting place in which to perform. The San Francisco Opera Chorus with the Municipal Chorus foreshadow the day when the musical productions here will take rank with those produced in Chicago and New York, and a home for all the future will here be provided, second to none in beauty. Art gallery and museum features also are included in the plans. The War Memorial deserves unanimous support. Vote Yes. Civic League of Improvement Clubs and Associations of San Francisco, W. W. Watson, President, George W. Gerhard,

Secretary." With that bond issue carried and the Board of Supervisors providing in that resolution, section 12, "This Ordinance is the third of a series of Ordinances which will be adopted by the Board of Supervisors relating to and designed to secure the acquisition, construction and completion of the permanent improvements named," later on——

SUPERVISOR HAVENNER (interrupting): Mr. Mayor, may I interrupt you just a moment. Do I understand you to say that that is the only argument you find there?

Mr. Mayor, that is not the official argument of the Board of Supervisors, but it is the argument of the Civic League of Improvement Clubs.

THE MAYOR: Mr. Havenner, I want to be as fair as I can. I sent to the Registrar's office this morning. This, of course, has come upon me out of a clear sky; I have had no letter; I have had no communication; I find it in the morning papers. And I sent to the Registrar's office this morning for the purpose of finding out what messages were sent to the voters when this bond issue was before them, and this, the Registrar says, is the only one that went out from the Board. Now, I will finish, please.

SUPERVISOR HAVENNER: I think you will find that he is in error in that. I am quite sure that an official argument was sent out by the Citizens' Committee in charge of the bonds in the campaign.

THE MAYOR: Now, as I proceed, permit me to say, and I will state, with your permission, other facts which I have here, simply as a preliminary presentation to you of all of the facts relating to the original subscriptions and what they were for, the last ten years which has been referred to in this open letter to the Mayor, where the money came from, who has the money, what was done with it, and what all the plans were in connection with it, because I have never been at a meeting, never invited to attend a meeting. The Board has had three members on the Committee of Trustees representing the Board, and I have listened to the progress which I presumed was going on toward the completion of this $6,000,000 project. I am going to ask you now, so that, as I proceed, you will know that I am seeking other information. I am not making a full and a complete report this morning; I am answering the charges, briefly, that have been referred to in this open letter to the Mayor; I am answering that as a preliminary report, but positive facts I will present in a full report to the Board in due time. I have not the office staff nor the help in my office to dig up all the data necessary in the compilation of this report. I would respectfully request this morning that you detail to me, to work with my assistant secretary, Judge Smith, one of the young attorneys from the City Attorney's office, and some clerical help from your office, that I might dig up and that I might answer and I might prepare a full and complete reply to the open letter which has been addressed to the Mayor this morning and is in the public mind for discussion. If you will give me that help, I will bring here, in due time, a full and complete, unbiased statement of the facts, because I yield to no man in my desire, and my advocacy, and my voice and my efforts to pass that bond issue, to build a War Memorial in honor of those who served their country and who sacrificed their lives for our country, and I yield to no man in his efforts, during the entire period of the war, giving up my time, doing the best I could in the interests of those that were called in the interests of the war and in the interest of keeping the home fires burning here in San Francisco. These are gross libelous charges against honest men in this community, charges of dishonesty, inefficiency and waste of money, men who gave their own money. Practically charges of graft, charged that, because the property across the street stands in the name of the Mercantile Trust Company, that John Drum was going to get away with it. Charges

which I want, now that I am in it—I have never been in it since this Board of Supervisors passed the resolution last December appointing three of your own number, three war veterans, three trustees, and you included the Mayor. And I took hold of that, and I struggled, as that committee of ten did, to try and arrive at a solution of this problem and try and bring amity out of what appears to be years of bitterness, over a great public project. I want to get these facts together. The statement that I issued was to the effect that I did not wish to put you in a jam on the eve of an election. And there is nothing in my statement that I was going to have a showdown with you today, or anything to that effect, except a kindly statement that we would let the matter lay over until after election, so it would not be dragged in, which I think had the approval of the members of the Board. Now, these charges cannot go unanswered. And they will not go unanswered, so far as I am concerned, with the highest respect, the loftiest dignity and honor to the veteran organizations, and my tribute at all times to them. But when charges are made like this against honest citizens of this city, and spread broadcast throughout the nation, it is about time that an honest statement was made of the situation. And if I may have that help, we will proceed immediately to dig up the information, Mr. Havenner, which you have just suggested, that there is other data which is not in my possession.

SUPERVISOR HAVENNER: Mr. Mayor, I am going to ask that your request be approved, and in so moving, there is just one issue that has been raised here, which I think is unfair to this Board and which ought to be clarified in the public mind. The statement has been made from various sources, and published in the press, that if there were not immediate action on the confirmation of a Board of Trustees, which I heartily desire, the construction of the War Memorial would be delayed by that very failure at this moment. Well, those of us who are on the Board and who are familiar with the fiscal affairs of the city, Mr. Mayor, know that that is not the fact. At this moment we all know that we could not sell our bonds, not even if we had a Board in operation which recommended their sale tomorrow. And there is not in the War Memorial fund sufficient money to carry out the recommendations of the present private Board of War Memorial Trustees, and permit those bonds to be taken by the contractor. So we are up against a financial problem which faces the entire country, and in which San Francisco is not in a unique position. We are facing a national situation in the bond market. So that even if the appointment of the War Memorial Trustees should be delayed a few weeks, which I trust it will not be, we will not be contributing to any delay in the construction of the project. I move that the Mayor's request be approved.

SUPERVISOR POWERS: I second the motion.

SUPERVISOR SCHMIDT: I desire to second the motion made by Supervisor Havenner, that the necessary help be given to you to obtain all information pertaining to the War Memorial.

SUPERVISOR POWERS: I am in favor of that motion, but I would like to have one remark which is being spread throughout San Francisco clarified, and that is that this Board of Supervisors is responsible for digging the two holes across the street, which you and every member of this Board of Supervisors realizes that this Board of Supervisors had nothing to do with digging the two holes across the street, which we are now being charged with, and I think that should be straightened out in the public's mind throughout San Francisco.

THE MAYOR: All in favor of giving the Mayor the necessary help, an attorney from the City Attorney's office to cooperate with Judge Smith and what clerical help I need to compile a full and complete statement of this matter, will please say aye.

(Ayes.) Contrary minded, no. (No response.) The ayes have it and it is unanimously carried.

SUPERVISOR ANDRIANO: I desire to inquire whether a copy of that communication which appeared in the public press was sent to this Board by the Veterans?

THE MAYOR: I do not know; I have not been honored with a copy, so I do not know whether any of you have it or not.

SUPERVISOR HAVENNER: Mr. Mayor, I have inquired of the Clerk and I understand that it has not been. I want it to be understood, of course, that this statement is not of an official nature, and that the members of the Board were not aware of its preparation and knew nothing about it until it appeared in the press.

THE MAYOR: The slightest courtesy would prompt sending a copy of those communications to the Board of Supervisors and to the Mayor. I am reading from the press.

SUPERVISOR TONER: Mr. Mayor, might I ask you the date of the communication which was read by you and which appears in the morning papers, if there is a date on it? The Chronicle has the full text of the letter, Mr. Mayor.

THE MAYOR: It has no date, appearing in the Chronicle, nor the abbreviated text of it in the Examiner. And now permit me to proceed. There are so many matters in this full text requiring a reply, of bad faith being charged, Mr. John Drum's name being mentioned, charges of extravagance and waste and practically dishonesty and mismanagement, four men reappointed. The only member of the original Board that is on this list that I have named and presented to you for confirmation is Herbert Fleishhacker. Mr. Crocker and McKee and Mr. Walter Martin and others who live down the peninsula were ineligible by reason of the fact that the act provides that they must be residents of the City and County of San Francisco. And the only one of the original trustees in securing the first $2,000,000 was Herbert Fleishhacker. Mr. Kingsbury never was on it as a trustee. Mr. James——

SUPERVISOR RONCOVIERI (interrupting): Mr. Mayor, Mr. Drum was.

THE MAYOR: Mr. Drum's name has not been submitted to this Board. Mr. Drum's name is not amongst the eleven submitted.

SUPERVISOR RONCOVIERI: That is true.

THE MAYOR: Mr. Bentley was head of the Musical Association, never met or a member of the Board that raised the first $2,000,000. And yet the headlines say that four men were reappointed. And then reference is made to the President sending nominations to Congress. Why, the President never yet has sent nominations to Congress of a group, such as the Farm Board, an agricultural group, but what they have discussed the names of the men singly, and if there is one upon the group that is not satisfactory, the whole Board is not turned down. And it is these points brought out in this open letter that I want now, for your benefit, and my benefit and for the citizens of San Francisco knowledge of what the facts are, I want to present it in a proper form.

Now, as a matter of fact, one thing that you want to keep in mind is that the County Council of the American Legion had a committee of 16 members functioning for two years on the plans, going over them carefully, and this committee, or 14 of them, or this committee of 16, had full power to act, and they approved the plans now in the hands of the Board of Trustees, that is, 14 of them, and the plans have got their signatures, and their signatures are attached, and the plans are now in the hands of the Board of Trustees. I am trying to borrow those plans if I can with the 14 original signatures signed to those plans, in whose hands they were for over two years' time.

SUPERVISOR SCHMIDT: With reference to those plans, it was charged, before this Board, that the original plans that the Veterans

signed had been changed, and they were entirely different than the altered plans that are now in effect.

THE MAYOR: Now, Mr. Schmidt, I am giving you just a preliminary report, for your good as well as mine, to let the public know today that there are some points involved in this matter, so they won't get a wrong impression of what the actual facts are. The plans were changed ten feet, but it did not take a square foot away from the purposes of the War Memorial nor the activities of the Veterans. The halls were narrowed slightly, but every inch is still there on those plans. And then a new committee was appointed because they could not agree, and you had three members of your Honorable Board, Mr. McSheehy, Mr. Colman and Mr. Havenner, representing you at all of the meetings of the Board, when held.

SUPERVISOR SCHMIDT: Mr. Mayor, I was going to state that it would be well if we could get that transcript of the statements made by the various veterans for your information. It would be well for you to go over that, because there were a lot of statements made that would help you out in your investigations.

THE MAYOR: I now ask for that statement, which I have a memorandum of. Will the Board authorize the reporter to compile for you and for me a full statement of the transcript taken the day the hearing was held before you?

SUPERVISOR SCHMIDT: I so move, Mr. Mayor, that a transcript be made.

SUPERVISOR HAVENNER: I will second that motion.

THE MAYOR: It has been moved and seconded that the reporter compile a full statement of what transpired when the names of the Mayor's appointments were before the Board for consideration.

SUPERVISOR HAVENNER: And for your further guidance, Mr. Mayor, if you have no objection, I think it would be worth while to have transcribed for your benefit the proceedings before this Board, in committee, sometime last year, when the entire Board of War Memorial Trustees appeared here and the representatives of the Veterans to discuss the plans that were then under consideration, if you have no objection. I think there was a fuller discussion on that particular evening than on any other occasion, Mr. Mayor.

SUPERVISOR SCHMIDT: I second the motion.

THE MAYOR: All in favor of the motions made that a full transcript be made of the hearings here when the nominations were before the Board and also at the meeting referred to by Supervisor Havenner, all in favor will please say aye.

(Ayes.) Contrary, no. (No response.)

THE MAYOR: The ayes have it and it is unanimously carried. I want to call your attention to the fact, so that the public may know it as a preliminary report, that in all three banks, not one bank, all told, there was not more than two hundred to three hundred thousand dollars out of the $2,000,000. They were in three banks, not one; they were in the Anglo, the Crocker and the American. And the reason that the money was put in those banks was to pay running expenses, architect's fees, appraisements and one thing and another, as an operating fund.

And another matter that I want to call the people's attention to is that the people who gratuitously subscribed the two million dollars had four years to pay it in and some of them are still paying. This money which was subscribed and collected was the property of the Regents of the University of California, and placed in their hands as Trustees. A portion of the money, approximately two hundred to three hundred thousand dollars, was held to pay current expenses, such as purchasing property, about 30 parcels, and Mr. Phillips and Mr. Dunnigan, the clerk, did most of the negotiating, the appraisers were——

THE CLERK (interrupting): Mr. Phillips was not in it at all.

THE MAYOR: Well, Mr. Dunnigan has the honor.

THE CLERK: No, it is not a matter of honor, it is a matter of record. The trustees and the California Title Company carried on the transactions and I sent for the owners, that is all I did.

* * * *

THE MAYOR: There were about 30 parcels purchased in this block across the street here, and Mr. Dunnigan did most of the negotiating. The appraisers were representatives of banks, insurance companies and real estate firms, all well qualified.

THE CLERK: The appraisers were the Real Estate Board.

THE MAYOR: The Real Estate Board and done under the supervision of the Board of Supervisors. Now, I respectfully call your attention to the fact that when you desired to merge the $2,000,000 with the $4,000,000 you passed the necessary legislation here so that it could be merged and the War Memorial, for which there was not sufficient money, and the Opera House, for which there was $2,000,000, could go hand in hand, and two blocks of land acquired. The block on the corner, you remember, was leased to a van and storage company, and that we had a lot of difficulty in getting them to go off of the land, and the Standard Oil was on the corner, and the trustees of the private fund advanced to the City $500,000 in cash, in order that that block could be purchased, and the two blocks then lie side by side, so that this beautiful War Memorial could be built as two buildings, on one side, with the closing of Fulton street.

Now, this circular was broadcasted by the thousands. "A War Memorial With No Veterans is No War Memorial. Vote No on Charter Amendment Number 32. Citizens of San Francisco, War Veterans speaking for themselves, through their Nationally recognized organizations, remind you that your bond issue of $4,000,000, asked in the name of War Veterans, was intended primarily to provide a real War Memorial as a tribute to deceased Veterans of all wars, and as headquarters for San Francisco War Veterans. Amendment 32 means that War Veterans have no assurance of a voice in the construction, arrangement, management or control of the War Memorial, and they have been promised since 1919 a Memorial which was to provide a permanent headquarters for Veterans of all Wars. Amendment 32 means that War Veterans have no assurance that the employees in the Veterans' Building or the War Memorial will be honorably discharged War Veterans. Amendment 32 means that the entire War Memorial project, as well as the control and administration thereof, may be in the hands of a group of people interested, primarily, in an Opera House and Art Museum, without regard to the wishes, desires or needs of the War Veterans. Those who submitted Amendment 32"—this is the Board of Supervisors—"those who submitted Amendment 32 did not consult any of the major War Veterans Organizations. They did not permit a suggestion or recommendation from any major War Veteran organization. They did not, in fact, even notify any major War Veteran organization of their intention to submit this amendment. Amendment 32 was presented at the last possible moment, within an hour of midnight, too late for any public hearings to be held. The War Veterans name and their cause have been and now are being used in an attempt to control and dominate an alleged War Memorial for the primary purpose of securing an Opera House and an Art Museum. Vote No on Amendment 32."

Now, permit me to read to you an editorial which——

SUPERVISOR RONCOVIERI (interrupting): What was Amendment 32, please? What was it, definitely?

THE MAYOR: It is what we are working on now.

SUPERVISOR RONCOVIERI: Creating the trustees?

THE MAYOR: Yes, everything, and the people carried that by a very substantial majority.

In yesterday morning's Examiner, dated San Francisco, October 13,

1929, there appears an article, written by Redfern Mason, the title of which is: "Speedy Solution of The War Memorial Difficulty Needed.

"It seems a thousand pities that there should be so much delay about the building of the War Memorial. Opera and Symphony are homeless; we have not, in the whole of San Francisco, a hall which is worthy of the high ministry of music.

"One thing some of the disputants in this matter seem to lose sight of. The War Memorial is not and never will be the property of the Musical Association, the Opera Association, or the American Legion. It is the property of the people of San Francisco and of them alone. Theirs is the interest to be considered before all others, and they it is who ought to have the dominating voice in its administration.

"Two million dollars were subscribed by private donation to make the Memorial, for which that money was given, an actuality. The purpose, as set forth in the deed by which the University of California was made recipient of the funds, was 'To honor the soldiers, sailors, marines and war workers, men and women, who brought imperishable glory by their splendid contribution to the World War.'

"But the two millions was insufficient and the citizens of San Francisco voted $4,000,000 'to complete the war memorial.' The total, $6,000,000 is available, or will be available, when the actual work is undertaken.

"Meanwhile the opera waits and the symphony hopes against hope; but nothing is done.

"The official representatives of the American Legion, which in San Francisco numbers about 4000 out of a total of 40,000 war veterans, demand a majority of six out of the eleven members of the board of trustees. Mayor Rolph gave them five; but his recommendation has been rejected by the Board of Supervisors.

"So things are at an impasse and meanwhile the people of San Francisco suffer.

"Looking at the ideal which the Memorial is intended to serve, brings to light the fact that one element is entirely unrepresented among the trustees. That element is the war workers, the men and women of the Red Cross, the two 'Y's,' the Knights of Columbus, the Jewish Welfare Board and Salvation Army. If the Mayor would nominate some representative citizen from among these bodies, he might very well act as a moderator and harmonizer to bring the other elements of the board into organic unity. Such a man would not be unacceptable to the Legion, for the war workers were veritably brothers and sisters to them during the fighting. On the other hand, they would not be swayed by allegiance to any body which, by its nature, may become political.

"Some of the veterans think of the War Memorial in too narrow terms. Its purpose is to honor the dead, indeed, but the best way to do that is to help the living. The Memorial will last for centuries; the Legion will march away within a few decades. But their children will remain, and their children's children. It is they whom the Memorial is intended to benefit. Its purpose is, through the gentle ministrations of art, to bring up a generation that shall have outgrown the brutalities of war.

"As far as actual space is concerned, the Legionnaires are well taken care of. They have the use of 105,000 square feet, which is equal to a building 100 feet long and as many broad, ten stories high. True, the Legion building has a total content of 155,109 square feet, but 49,322 square feet are to be devoted to the art museum. But the museum is for the veterans just as much as it is for the civilian. The same is true of the opera house. But the Legion have this advantage over the opera and the symphony—that, whereas the musical organizations will have to pay when ever they use the Memorial, the Legion gets its quarters for nothing.

"Moreover, the $2,000,000 of the original donation is not the only

contribution of the private citizens. They pay their quota of the bond issue, and, seeing that the richest people in the community were among their number, it follows that their contribution is correspondingly large.

"As for the criticisms passed on the building, it must not be forgotten that last year the plans received the formal approval of the Legion. Here is a copy of that approval:

" 'This set of plans, consisting of five sheets, is hereby approved by the San Francisco posts of the American Legion. Signed, San Francisco, California, March 19, 1928. American Legion War Memorial Committee, James B. Burns.' And the plans bear the names of the representatives of fourteen of then existing sixteen posts.

"In fifty years San Francisco will probably have a population of two million people. To place the War Memorial under the control of any organization whatsoever would be unjust to the populace as a whole. The Memorial is a people's Memorial, not a Legion Memorial. When America went to war the whole people participated, though only the enlisted men fought on the field. To the whole people, therefore, the War Memorial belongs, and the domination of their interest should be assured on the board of trustees."

Gentlemen, as a preliminary report on this matter, I leave this preliminary statement of facts in the hands of the reporter, and in due time, with the help you have given me this morning, I will make you a full and completed report. I will not drag the matter into the issues of the campaign at this time; I will not embarrass any of you, or anybody else, over it, but I will take the responsibility of giving you a report, a fair report, an unbiased report, and in the report pay the highest possible tribute to the men and to the women and to all who served their country when their country needed them the most.

Before a policy or bond of any insurance corporation shall be accepted by the Board of Police Commissioners there shall be filed with said policy or bond a receipt of the corporation issuing the same, showing that the premium thereon for at least a period of three (3) months of the term thereof has been fully paid. If at any time said policy of insurance or bond be cancelled by the issuing corporation, or by the personal sureties, or either of them, or the authority of said issuing corporation to do business in the State of California be revoked, it shall be unlawful for any person, firm or corporation to operate such motor

vehicle until a bond or insurance policy meeting the requirements of this ordinance shall have been filed with the Board of Police Commissioners.

Section 7. Any person, firm or corporation violating any of the provisions of this ordinance shall be guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine not to exceed five hundred ($500.00) dollars, or by imprisonment in the county jail for a period not to exceed six months, or by both such fine and imprisonment.

Commendation of Chief of Police William J. Quinn and Other Police Officials.

Supervisor McSheehy presented:

Resolution No. 31611 (New Series), as follows:

Resolved, That the Board of Supervisors heartily commends the Chief of Police, William J. Quinn, and Captain of Detectives Charles W. Dullea, Detective Sergeants George J. McLaughlin, J. P. Johnson, William McMahon, M. J. Porter, M. Dowell, W. Milliken, R. Rasmussen, George Wall, R. O. Hughes, Vernon Van Matre, E. J. McSheehy and Officer Walter E. Harrington for the quick and efficient manner in which they captured the desperadoes who were starting a reign of terror in San Francisco.

This is another example of the efficiency and skill of the San Francisco Police Department, as evidenced by the following:

On September 21, 1929, a branch bank of the American Trust Company, located at Thirty-seventh avenue and Balboa street, in this city, was held up by four men and robbed of approximately $1,500. The bandits, in perpetrating this job, used a Chrysler Imperial sedan which had been stolen in the hold-up of a garage on Sacramento street on the night of September 11th. On October 19th a branch bank of the Bank of America, located at Hayes and Octavia streets, was held up by three men, also using a stolen automobile, which automobile had been stolen on the previous night in a robbery of the Cosmos Garage. In the hold-up of this last bank, approximately $4,500 was stolen. The method of operation in both cases was identical, which led the Police Department to believe that they were perpetrated by the same group of bandits and that the City of San Francisco was in for a reign of terror at the hands of these thugs. On Monday, October 21st, a collector of the Bank of Italy was held up by two men on California street and robbed of approximately $1,000.

Realizing the seriousness of the situation, every effort was made by the San Francisco Police Department to track these men down and put an end to their unlawful activities, with the result that within forty-eight hours after the Bank of America hold-up the police took into custody one Kenneth Chappell and one Ted W. Bishop, who admitted their participation in these robberies. At the time of their arrest in an apartment on Fell street these men were equipped with bullet-proof vests, and seven revolvers and pistols, fully loaded and ready for use. The Police Department is in possession of information which will, no doubt, lead to the speedy arrest of the two men implicated in these hold-ups, and thus put to an end a prospective reign of terror.

This is another instance of the wonderful work that is being accomplished by the men of the San Francisco Police Department in their effort to make the City of San Francisco a safe place to live for law-abiding citizens. The speedy capture of these criminals will be broadcast throughout the criminal world and serve as a warning that San Francisco is not a safe place for them to operate in.

Adopted by the following vote:

Ayes—Supervisors Andriano, Deasy, Havenner, Hayden, McGovern, McSheehy, Powers, Roncovieri, Shannon, Stanton, Toner—11

Relative to the Acquisition of Mills' Airport Properties.

The following communications were presented and read by the Clerk:

San Francisco, California, October 30, 1929.

Honorable Board of Supervisors, City and County of San Francisco, City Hall, San Francisco, California.

Gentlemen: I have just received a letter from the Honorable Ogden L. Mills, written in reply to my recent visit to him in Washington, relative to Mills Field, San Francisco's airport. Will you please give this matter your very prompt attention?

I am very anxious to cooperate with you for the immediate acquirement of the land, as it is a much-needed and a worthy San Francisco project. Let us acquire it at once, now that Mr. Mills has been generous enough to give us that opportunity.

A special meeting of the Board should be immediately held to discuss ways and means of purchasing this land. An old adage is very applicable here: "Strike while the iron is hot." Another old wise saying could well be repeated: "If you want a thing, take it; if you don't, leave it alone."

San Francisco wants Mills Field. Let us buy it at once.

Yours very respectfully,

JAMES ROLPH, JR., Mayor.

New York, October 24, 1929.

Hon. James Rolph, City Hall, San Francisco, California.

My Dear Mr. Mayor: When I saw you in Washington some weeks ago I promised that I would let you know at an early date the position of the Mills Estate, Inc., in respect of Mills Field.

I explained to you at that time that my father had leased the field to the City with the understanding that the latter could use it more or less on an experimental basis until a permanent location could be found, and that there was no intention on his part to sell the field to the City as a permanent airport. I further explained to you that it was my father's

idea, and my idea, that this property is by no means an ideal one for an airport, while, on the other hand, it is particularly well suited for industrial purposes, and that I had the very distinct feeling that an industrial development there would, in the long run, mean a great deal more to San Francisco than the location there of an airport.

As far as the Mills Estate, Inc., is concerned, it would much prefer holding this property for industrial development, which I anticipate will take place at a reasonably early date. However, you told me that you believed the City desired to acquire the property for airport purposes; that considerable money had already been invested in an airport, and you hoped we would see our way clear to sell this property to the City of San Francisco.

I am writing you today to say that the company which I represent will consider favorably a fair offer for the property now used for airport purposes, which, I understand, is about one hundred and fifty (150) acres. I want it to be clearly understood, however, that this proposition is limited to the area occupied by the present airport, and that I do not see my way clear to sell to the City of San Francisco any of the other property, which I believe should be reserved for industrial development. I want to add that I am taking this position wholly out of consideration of what you state to be the wishes of the people of San Francisco, and that in my judgment a sale of this property for airport purposes to the City constitutes a very real sacrifice upon the part of those whom I represent.

Sincerely yours,
(Signed OGDEN L. MILLS.

Hon. James Rolph, Jr., Mayor; Supervisor Milo F. Kent, Supervisor Andrew J. Gallagher and Supervisor Frank J. McGovern, Members Public Welfare, Publicity and Airport Committee, and Supervisor Franck R. Havenner, Supervisor Charles J. Powers and Supervisor Milo F. Kent, Members Finance Committee.

Gentlemen: His Honor the Mayor has presented to the Board of Supervisors an offer from Ogden L. Mills to sell to the City the present site of the Mills Field Municipal Airport. This is gratifying result of negotiations that have been pending for several months.

Supervisor Kent, Chairman of the Airport Committee, requests a joint meeting of the Finance and Public Welfare, Publicity and Airport Committees at 10 a. m. Friday, November 1, 1929.

You are urgently requested to attend.

Sincerely yours,
Clerk Public Welfare, Publicity and Airport Committee.

October 31, 1929.

Hon. James Rolph, Jr., Mayor, City Hall.

Dear Mayor: I am in receipt of your very valuable communication relative to the letter which has been received from the Mills Estate, Incorporated, concerning their willingness to sell to the City and County of San Francisco the present Mills Field site for municipal airport purposes.

This is, indeed, very gratifying, and the Hon. Ogden L. Mills has shown his deep consideration for the people of San Francisco in agreeing to this sale.

I am calling a special meeting of the committee for 10 o'clock Friday, November 1st, that we may discuss in detail the immediate acquisition of this property. I realize, Mr. Mayor, that you are burdened with many municipal affairs, but I will appeal to you to attend this meeting, if possible, as I believe it is of vast importance to us to immediately acknowledge receipt of Mr. Mills' offer to sell, and we will appreciate your good counsel and advice at the meeting. Recommendation will be made by the committee to the Board of Supervisors for immediate action in this matter.

Those of us who have worked unceasingly in our endeavor to secure

for San Francisco one of the finest airports in the world feel that congratulations are in order.

With my very warmest and personal regards, I am

Whereupon, the following recommendation of Airport and Finance Committees was taken up:

Resolution No. ———— (New Series), as follows:

Whereas, the Mills Estate, Inc., has signified its willingness to sell to the City and County of San Francisco the present site of Mills Field for Municipal Airport purposes at a reasonable price, to be hereafter determined upon, and this gratifying offer from Hon. Resolved, That the Board of Supervisors hereby expresses its deep appreciation and gratitude to Mr. Mills for his splendid consideration of the City of San Francisco and his fine cooperation in this matter; and be it

Further Resolved, That the Finance and the Airport Committees be authorized to send the chief right of way agent of the Bureau of Engineering to negotiate with the Hon. Ogden L. Mills relative to price and conditions of purchase.

The following were presented by Supervisor Gallagher, read by the Clerk and *ordered spread in the Journal*:

Eureka Chamber of Commerce.

Eureka, California, October 29, 1929.

Supervisor Andrew J. Gallagher, City Hall, San Francisco, California.

Dear Mr. Gallagher: It is a real source of pleasure to me to, on behalf of the Eureka Chamber of Commerce and the Humboldt County Board of Trade, express to you, personally, our sincere appreciation for the wonderful reception given us at the annual meeting of the Redwood Empire Association, as well as to thank you for the many, many additional things you did which brought about additional publicity and advertising for the Redwood Empire and thereby to Humboldt County and Eureka, as integral parts of this territory.

Sincerely yours,
R. J. Wade, Manager.

Grants Pass Chamber of Commerce.

Grants Pass, Oregon, October 29, 1929.

Supervisor Andrew J. Gallagher, City Hall, San Francisco, California.

Dear Mr. Gallagher: Our members who attended the annual meeting of the Redwood Empire continually impress upon me the fact that they

were overwhelmed with courtesies and entertainment prepared for them by their friend Andy Gallagher, and they have all conveyed the idea to me that they were unable to express to you their appreciation of the many courtesies extended to them by you.

They feel that you and your City entertained in so lavish a manner that it will be useless for us to even try to reciprocate, but they want me to assure you that if they ever have the pleasure of getting you in Josephine County again they will do their best.

Yours truly,

GRANTS PASS CHAMBER OF COMMERCE.

By J. R. HARVEY, Secretary.

Ukiah Chamber of Commerce.

Ukiah, California, October 29, 1929.

Mr. Andrew J. Gallagher, Supervisor, City and County of San Francisco, City Hall, San Francisco, California.

My Dear Mr. Gallagher: I wish to express appreciation for my organization, and myself, personally, for the wonderful way in which San Francisco greeted and entertained those attending the ninth annual convention of the Redwood Empire Association, held in your City. The welcome flags on Market street, the traffic escort to the City Hall, and the cordial welcome by Mayor Rolph when the Caravan arrived in San Francisco, was only another indication that "San Francisco knows how."

I realize that the planning for the entertainment features, banquets, sight-seeing trips and the many other events meant many hours of your time and effort as well as the expending of a good sum of money, and we want you to know that the Redwood Empire is highly pleased at the spirit of cooperation evinced by San Francisco and her Board of Supervisors. We believe that the development of northern California will justify this faith you are placing in our section, and trust that the benefit will be mutual.

I cannot speak too highly of the help you have given on the various Caravans through the Redwood Empire and the convention, to say nothing of the advertising secured for us.

With kindest regards, I am

Yours truly,

WM. BROMLEY, President.

Napa, California, October 30, 1929.

Supervisor Andrew J. Gallagher, City Hall, San Francisco, California.

Dear Sir: San Francisco has certainly awakened to the relationship between her and her hinterland, and it is to such men as you, who have realized the situation, that we of the hinterland feel grateful for the demonstration of interest.

Your recent part in the reception of the Redwood Empire Association is evidence unmistakable of how you feel towards its activities. It was splendid advertising of the financial center of the Empire to its outlying provinces, and, as chairman of the Publicity Committee, possibly you will let me express, thus, appreciation of your endeavor from its publicity standpoint, but most particularly for the wonderful personal interest which it so recently demonstrated.

Yours very truly,

J. E. BEARD, Chairman Publicity Committee.

October 29, 1929.

Supervisor Andrew J. Gallagher, City Hall, San Francisco, California.

Dear Sir: While this letter is written at the direct request of the executive board and directors of the realtors unit, I am sure that I am expressing, also, the feeling of the entire Redwood Empire Association when I say to you that we, the realtors of the Redwood Empire,

deeply appreciate the wonderful reception, the extraordinary advertising and publicity on decorated Market street, the Ferry building, street cars and other places; and also for the direct mail advertising, printing and other factors in favor of the Redwood Empire during the recent ninth annual convention of the Redwood Empire Association. And I feel that it is fitting that we should tell you that we do appreciate all the extraordinary amount of time, thought and effort, as well as the money expended by you and your associates for the Redwood Empire Association work during the past year.

We who were fortunate enough to be present in your wonderful City during our convention, naturally benefited most in a personal way, but we know what you have done in our behalf will reflect to our mutual benefits.

Very truly yours,
C. W. COMSTOCK, President.

October 30, 1929.

Supervisor Andrew J. Gallagher, San Francisco.

Dear Mr. Gallagher: As a director of the Redwood Empire Association, may I take this opportunity of expressing to you personally the appreciation I feel for the splendid reception accorded the association at the time of the annual meeting in your City and for the extraordinary efforts that were put forth by you and other authorities of the City to bring the association to the attention of the public.

Yours sincerely,
J. H. MILLER.

San Rafael, Oct. 29, 1929.

Supervisor Andrew J. Gallagher, Supervisor Milo Kent, County Auditor Thos. F. Boyle, City Hall, San Francisco, California.

Gentlemen: Marvelous Marin, Inc., desires to express to you our appreciation for the wonderful reception, the extraordinary advertising and publicity, the decorations on Market street, the Ferry building, street cars, etc., also for the direct mail advertising, printing and other factors in favor of the Redwood Empire Association during their recent ninth annual convention.

We fully appreciate the interest you gentlemen have shown in the affairs of the Redwood Empire Association during the past year, as anything you do for that association benefits Marvelous Marin, Inc., as well as all other north bay counties and cities.

Yours very truly,
MARVELOUS MARIN, INC.,
By H. G. RIDGWAY, President.

Cloverdale, Calif., October 31, 1929.

Supervisor Andrew J. Gallagher, City Hall, San Francisco, Calif.

Dear Mr. Gallagher: On behalf of the board of directors of the Cloverdale Chamber of Commerce, I wish to take this opportunity of expressing our thanks and appreciation of the wonderful publicity that your City gave the Redwood Empire Association during the recent ninth annual convention. The Redwood Empire Association is doing such wonderful work along the line of publiciity and advancement of the nine north bay counties, and our Chamber of Commerce, which is a member of the association, feels that this letter of appreciation is only just a small word compared with some other larger chamber.

San Francisco and you certainly showed your loyalty to the association. The decorations on Market street, the Ferry building and other places surely showed us that you are cooperating with us to the fullest extent. These decorations possibly meant more to the mem-

bers and visitors at the convention than you realize. San Francisco's back country is with you all the time as we realize that you are with us all the time for the betterment and advancement not only of the City of San Francisco, but of her back country as well.

Trusting that I may again have the pleasure of meeting you personally, I am

Yours very truly,
N. S. COBB, Secretary.

Clear Lake, Calif., November 1, 1929.

Supervisor Andrew J. Gallagher, City of San Francisco, San Francisco, Calif.

Dear Mr. Gallagher: We wish to take this opportunity of expressing our thanks and appreciation to you and your associates on the Board of Supervisors for the wonderful reception which was extended to the Redwood Empire Association, made possible through the efforts of your Board.

Many have remarked about the advertising and publicity given the Redwood Empire Association through the medium of the street cars, taxis, Ferry building, etc.; also, the attractive decorations on Market street which must have required an extraordinary amount of time and effort on your part.

From the expressions generally heard, San Francisco and its governing body have established warm spots in the hearts of those fortunate enough to have attended the convention.

Again assuring you of our appreciation and with warm personal regards, we remain,

Very truly yours,
CLEAR LAKE CHAMBER OF COMMERCE,
JAS. K. DOANE, President.

Mendocino City, Calif., October 29, 1929.

To the Honorable Supervisor A. J. Gallagher, San Francisco, Calif.

Dear Sir: We wish to express our sincere appreciation of the courtesies shown our representatives by San Francisco through you and your associates during the ninth Redwood Empire convention; also for your support and assistance to our Redwood Empire Association during the past year.

Yours respectfully,

My Dear Sir and Friend: I wish to take this opportunity to thank you personally, as well as for the County Court, for the most splendid reception that you accorded to Unit One of the Redwood Empire Caravan, of which I was pleased to be a member on our late visit to San Francisco.

Kindly convey to the Board of Supervisors of San Francisco our sincere congratulations on the wonderful reception you gave us.

from participating in Redwood Empire Association activities. We were also greatly pleased with the cordial treatment you showed us while in San Francisco, and are sure that this will redound to the future benefit and profit of San Francisco many times over.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Traffic Law Enforcement Board to Survey and Conduct Holiday Safety Campaign.

Supervisor Schmidt presented:

Resolution No. 31638 (New Series), as follows:

Whereas, through the efforts of the Police Department and Traffic Law Enforcement Board, San Francisco is outstanding among American cities for a consistent reduction in its death rate; and

Whereas, deaths have decreased from 126 for the period January 1 to November 12, 1927, inclusive, to 101 for the same period in 1928 and to 85 to date this year, through a cooperative enforcement and educational campaign; and

Whereas, November and December, the latter bringing to the downtown district thousands of Christmas shoppers, are peak months in traffic deaths and injuries; and

Whereas, there is apparent necessity for a survey of loading and passenger zones, present and contemplated automatic signal installations, parking conditions and an educational campaign to acquaint the citizens of this City with regulations made for their protection; and

Whereas, the Traffic Law Enforcement Board embraces within its membership members of the Traffic, Finance, Streets and Police com-

mittees of this Board, the Chief of Police, Captain of Traffic, Police Judges, District Attorney, City Traffic Engineer, Coroner, Chief of the Department of Electricity and all other officials concerned with the traffic problem, representatives of the California State Automobile Association, San Francisco Traffic Survey Committee and of the four San Francisco newspapers; now, therefore, be it

Resolved, In the interest of public safety that the Board of Supervisors of the City and County of San Francisco request the Traffic Law Enforcement Board, in cooperation with the Police Department and other official agencies of the City to undertake the survey of existing traffic conditions as enumerated above and to conduct a "holiday safety campaign," similar to other successful campaigns sponsored by this group, to the end that the splendid record of this City for reducing traffic deaths and injuries shall be maintained; and be it further

Resolved, That all public officials, organizations and citizens of the City and County of San Francisco be and are hereby requested to cooperate in this campaign to conserve life and limb.

Death of Assistant City Attorney Charles J. McDonnell.

The following resolution was presented by Supervisor McSheehy and *adopted unanimously by rising vote*:

Resolution No. 31636 (New Series), as follows:

Whereas, death has taken from our midst Charles J. McDonnell, Assistant City Attorney of San Francisco; and

Whereas, the late Charles McDonnell exhibited during life a laudable ambition, a sterling character and love for the better things in life, as well as for his fellow man; and

Whereas, Charles McDonnell was a man who cared tenderly for his family, giving to it the choicest of his better self; therefore be it

Resolved, That the Board of Supervisors of the City and County of San Francisco does hereby offer sincere condolences to the wife and children of the late Charles McDonnell; and be it further

Resolved, That a copy of this resolution be spread on the minutes of the Board and another copy be sent to the wife of the late deceased.

In re Resolution of Memoriam on the Death of Fire Chief Thomas R. Murphy.

SUPERVISOR MARKS: I desire to move at this time, if the Board has not already taken action, that when the Board adjourns today it adjourn out of respect to the memory of former Fire Chief Murphy.

SUPERVISOR HAYDEN: I second that motion.

SUPERVISOR MARKS: I have not at this time prepared, to present to the Board, a formal resolution, and yet I think that the achievements and the record of Chief Murphy, and the regard that the people had for him in San Francisco, is a sufficient testimonial without the Board adopting a formal resolution.

I do not believe that San Francisco has often had a governmental official in charge of a technical branch of the City government who received such general commendation for the manner in which his department and his functions operated. He had the respect, of course, of everyone, and their love and admiration for a sterling public official. I move you, Mr. Chairman, that the Board adjourn out of respect to his memory.

SUPERVISOR HAYDEN: I second that motion.

SUPERVISOR COLMAN: Mr. Chairman, I am very happy to second the motion and also pay a tribute to a dear friend and a remarkably fine one. I do believe that Chief Murphy himself, could he choose words said in his praise, would prefer to hear that he was a great fireman. He was in our Fire Department for thirty-five years, and was the Chief of our Fire Department for eighteen of these years. It is said, throughout the country and throughout the world, that San Francisco's Fire Department is second to none, and the credit for this condition is due to the Chief. He knew only one duty, and he demanded that his men perform their duty. He did not spare himself, and his going at such a comparatively young age is the result of his devotion to duty, and no doubt is caused by injuries received while fighting fires. The successor to the Chief has been named, and I know that he will be glad to follow the example of Chief Murphy, and if he reaches the heights that our departed friend reached he will have well performed his duties. San Francisco has lost a wonderful public servant in Thomas R. Murphy.

(The resolution is *carried by a unanimous rising vote.*)

THE CHAIRMAN: *So ordered.*

SUPERVISOR TONER: Mr. Chairman, I feel that Mr. Marks really should introduce a resolution relative to the late deceased Chief, that this resolution should be formally engrossed and sent to his bereaved family, and that that should be spread upon the minutes of this meeting.

SUPERVISOR MARKS: I will incorporate that in my motion, and I will ask the Clerk to prepare such a resolution and submit it to me and the Board can then follow its usual course in having it engrossed.

THE CHAIRMAN: *So ordered as amended.*

Bill No. ————, Ordinance No. ———— (New Series), as follows:

Providing for the issuance of certificates of public convenience and necessity in connection with the issuance of licenses for the operation of taxicabs and motor vehicles for hire as defined in Ordinance No. 6979, and providing for the issuance of certificates of public convenience and necessity in connection with the operation of sightseeing buses as said buses are defined in Ordinance No. 5118.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That no license shall be issued for the operation of any

taxicab or automobile for hire, as the same are defined in Ordinance No. 6979, unless and until the Board of Supervisors of the City and County of San Francisco shall, by resolution, declare that public convenience and necessity require the proposed taxicab service or the service of said automobile for hire for which application for a license is made.

Provided, that such declaration of public convenience and necessity shall not be necessary.

(a) For the licensing of the same number of taxicabs or automobiles for hire licensed for operation and operated by the applicant under the same name and colors on the day upon which this ordinance shall take effect, or the renewal of the same number of licenses annually thereafter; or

(b) For the renewal of licenses to the applicant for the number of taxicabs or automobiles for hire of the applicant for which the said Board of Supervisors shall have at any time prior to the date of application for such renewal made a declaration of public convenience and necessity.

Every person, firm or corporation holding a license authorizing the operation of a taxicab or an automobile for hire under and pursuant to the provisions of Ordinance No. 6979 of this City and County shall, upon the date this ordinance shall become effective, file with the Clerk of this Board of Supervisors an affidavit setting forth the number of taxicabs and/or automobiles for hire which it is then operating, and shall describe the colors of the same.

Section 2. In determining whether public convenience and necessity require the licensing of such taxicabs or automobiles for hire for which application may be made, the Board of Supervisors shall take into consideration whether the demands of public convenience and necessity require such proposed or such additional taxicab service within the City of San Francisco; the financial responsibility of the applicant; the number, kind and type of equipment; the schedule of maximum rates proposed to be charged; the color scheme to be used by the applicant; the increased traffic congestion and demand for increased parking space on the streets of the City which may result and whether the safe use of the streets by the public, both vehicular and pedestrian, will be preserved by the granting of such additional license, and such other relative facts as the said Board of Supervisors may deem advisable or necessary.

Section 3. Any applicant for a license to operate a taxicab or an automobile for hire in accordance with the terms of Ordinance 6979 shall make proper application to this Board of Supervisors for its declaration of the public convenience and necessity on blanks to be furnished by the Clerk of said Board of Supervisors and immediately upon the filing of such an application said Clerk shall cause a notice to be published in one of the leading daily newspapers of the City of San Francisco which said notice shall be paid for in full by the applicant, and which said notice shall set forth the fact that said application has been filed for a license to operate a taxicab and/or automobile for hire; the name of the applicant; kind of equipment, and all other information from the said application, which said Clerk may deem necessary and notify all holders of existing taxicab licenses and/or licenses for automobiles for hire, that a public meeting will be held at a public place in the City of San Francisco to be designated by the said Clerk at a time not less than five (5) days nor more than fifteen (15) days after the date of the first publication of said notice, and said notice is to be published for three successive days. All holders of existing licenses for the operation of taxicabs and/or automobiles for hire shall thereupon be entitled to file any complaints in protest that said holders may see fit at the time of the holding of the investigating and hear-

ing, with reference to the public convenience and necessity requiring the operation of such additional vehicle or vehicles covered in the application. The Board of Supervisors shall consider all of the complaints and protests and in conducting its hearing shall have the right to call such witnesses as it may see fit. In all of such hearings the burden of proof shall be upon the applicant to establish by clear, cogent and convincing evidence, which shall satisfy the said Board of Supervisors beyond a reasonable doubt that public convenience and necessity require such operation of the vehicle or vehicles for which the said application has been made.

Section 4. If the Board of Supervisors finds from its investigation and hearing that the public convenience and necessity justify the operation of the vehicle for which license is desired, it shall notify the applicant of its finding. Within sixty (60) days thereafter the applicant shall furnish to the Board of Supervisors any and all additional information which may be required, and if the said Board of Supervisors then finds that the applicant is the owner and bona fide operator of the vehicle for which license is desired, and that such vehicle complies with all of the ordinances of the City and County of San Francisco, and all of the rules and regulations enacted by the Board of Supervisors and the Police Commission of said City and County, it shall thereupon issue to said applicant a certificate of public convenience and necessity and thereupon said applicant shall deliver said certificate to the Police Commission of the City and County of San Francisco, who may thereupon in the exercise of its discretion vested in said Commission under and pursuant to the provision of Ordinance 6979 of this City and County, grant to said applicant a license for the operation of such vehicles in accordance with the terms of said ordinance.

If the Board of Supervisors finds from such investigation and hearing that the public convenience and necessity do not justify the operation of the vehicle for which license is desired, it shall forthwith notify the applicant of said finding.

Section 5. The applicant shall regularly and daily operate his or its licensed taxicabs and/or automobiles for hire during each day of the licensed year to the extent reasonably necessary to meet the public demand for such taxicab service. Upon complete abandonment of such taxicab and/or automobile for hire service, for a period of ten consecutive days by an owner or operator, the Board of Supervisors shall upon hearing, after five (5) days' notice to the said applicant, thereupon direct the Police Commission of the City and County of San Francisco to revoke its said license which it may have granted to said applicant in accordance with the terms and provisions of the aforesaid Ordinance No. 6979, and said license shall be revoked.

Section 6. Establishment of Chicago Office, San Francisco Convention and Tourist Bureau.

The following was presented and read by the Clerk and ordered *spread on the Journal*:

December 6, 1929.

Hon. Milo F. Kent, 30 Montgomery street, San Francisco.

Dear Mr. Kent: You are aware that the San Francisco Convention and Tourist Bureau has established an office at 209 North Michigan avenue, Chicago. This location, on Chicago's most fashionable and America's most traveled boulevard, is ideal. Within a thousand feet of us, north and south, are the offices of nearly all of the nation's greatest travel bureaus, steamship companies and many of its great railroad companies.

We consider this a step forward in the advancement of San Francisco's interests, not only pertaining to conventions and tourist travel, but to the presentation of the resources and advantages of San Francisco and central California generally. The opening of this branch at Chicago is the fruit of twenty years' growth and consistent effort of members and officers of this Bureau, assisted ably in the outcome by the Mayor and Board of Supervisors.

Desiring that our undertaking may be of the utmost use, we trust you will take pleasure in inspecting our North Michigan avenue quarters when in Chicago, and making your headquarters there; also, that you will tell your friends journeying thither that a cordial and hospitable welcome awaits them.

On behalf of the members, directors and staff of the San Francisco Convention and Tourist Bureau, we beg to thank you for giving this message the widest possible circulation.

Sincerely,

(Signed) PAUL T. CARROLL,
President.

Issuance of Certificates of Public Convenience and Necessity, Taxicabs.

On recommendation of Police Committee.

Bill No. 9130, Ordinance No. ———— (New Series), as follows:

Providing for the issuance of certificates of public convenience and necessity in connection with the issuance of licenses for the operation of taxicabs, as defined in Ordinance No. 6979 (New Series), and providing for the issuance of certificates of public convenience and necessity in connection with the operation of sightseeing buses as said buses are defined in Ordinance No. 5118 (New Series), and providing a penalty for any violation thereof.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That no license shall be issued for the operation of any taxicab, as the same is defined in Ordinance No. 6979 (New Series), unless and until the Board of Supervisors of the City and County of San Francisco shall, by resolution, declare that public convenience and necessity require the proposed taxicab service for which application for a license is made;

Provided, that such declaration of public convenience and necessity shall not be necessary,

(a) For the licensing of the same number of taxicabs licensed for operation by the applicant under the same name and colors on the day upon which this ordinance shall take effect, or the renewal of the same number of licenses annually thereafter; or

(b) For the renewal of licenses to the applicant for the number of taxicabs of the applicant for which the said Board of Supervisors shall have at any time prior to the date of application for such renewal made a declaration of public convenience and necessity.

Every person, firm or corporation holding a license authorizing the operation of a taxicab under and pursuant to the provisions of Ordinance No. 6979 (New Series) of this City and County shall within ten (10) days from the date this ordinance shall become effective, file with the Clerk of this Board of Supervisors an affidavit setting forth the number of taxicabs which it is then licensed to operate, and shall describe the colors of the same.

Section 2. In determining whether public convenience and necessity require the licensing of such taxicabs for which application may be made, the Board of Supervisors shall take into consideration whether the demands of public convenience and necessity require such proposed or such additional taxicab service within the City of San Francisco; the financial responsibility of the applicant; the number, kind and type of equipment; the schedule of maximum rates proposed to be charged; the color scheme to be used by the applicant; the increased traffic congestion and demand for increased parking space on the streets of the City which may result and whether the safe use of the streets by the public, both vehicular and pedestrian, will be preserved by the granting of such additional license, and such other relative facts as the said Board of Supervisors may deem advisable or necessary.

Section 3. Any applicant for a license to operate a taxicab in accordance with the terms of Ordinance No. 6979 (New Series), shall make proper application to this Board of Supervisors for its declaration of the public convenience and necessity, on blanks to be furnished by the Clerk of said Board of Supervisors, and immediately upon the filing of such an application said Clerk shall cause a notice to be published in one of the leading daily newspapers of the City of San Francisco, which said notice shall be paid for in full by the applicant, and which said notice shall set forth the fact that said application has been filed for a license to operate a taxicab or taxicab business, the name of the applicant, kind of equipment, and all other information from the said application, which said Clerk may deem necessary, and notify all holders of existing taxicab licenses, that a public meeting will be held at a public place in the City of San Francisco to be designated by the said Clerk at a time not less than five (5) days nor more than fifteen (15) days after the date of the first publication of said notice, and said notice is to be published for three consecutive days. All holders of existing licenses for the operation of taxicabs shall thereupon be entitled to file any complaints in protest that said holders may see fit at the time of the holding of the investigation and hearing. The Board of Supervisors shall consider all of the complaints and protests and in conducting its hearing shall have the right to call such witnesses as it may see fit. In all of such hearings the burden of proof shall be upon the applicant to establish by clear, cogent and convincing evidence, which shall satisfy the said Board of Supervisors beyond a reasonable doubt that public convenience and necessity require such operation of the vehicle or vehicles for which the said application has been made, and that such application in all other respects should be granted.

Section 4. If the Board of Supervisors finds from its investigation and hearing that the public convenience and necessity justify the operation of the vehicle for which license is desired, it shall notify the applicant of its finding. Within sixty (60) days thereafter the applicant shall furnish to the Board of Supervisors any and all additional information which may be required, and if the said Board of Supervisors then finds that the applicant is the owner and bona fide operator of the vehicle for which license is desired, and that such vehicle complies with all of the ordinances of the City and County of San Francisco, and all of the rules and regulations enacted by the Board of Supervisors and the Police Commission of said City and County, it shall thereupon issue to said applicant a certificate of public convenience and necessity and thereupon said applicant shall deliver

said certificate to the Police Commission of the City and County of San Francisco, who may thereupon, in the exercise of its discretion, vested in said Commission under and pursuant to the provision of Ordinance No. 6979 (New Series), of this City and County, grant to said applicant a license for the operation of such vehicle in accordance with the terms of said ordinance.

If the Board of Supervisors finds from such investigation and hearing that the public convenience and necessity do not justify the operation of the vehicle for which license is desired, it shall forthwith notify the applicant of said finding.

Section 5. All persons, firms or corporations within the purview of this ordinance shall regularly and daily operate his or its licensed taxicab business during each day of the licensed year to the extent reasonably necessary to meet the public demand for such taxicab service. Upon abandonment of such taxicab business, for a period of ten (10) consecutive days by an owner or operator, the Board of Supervisors shall upon hearing, after five (5) days' notice to the said applicant, thereupon direct the Police Commission of the City and County of San Francisco to revoke its said license which it may have granted to said applicant in accordance with the terms and provisions of the aforesaid Ordinance No. 6979 (New Series), and said license shall be revoked. Such permits as are herein granted shall be transferable upon written application to said Board of Supervisors and consent having been so obtained from said Board of Supervisors, and any and all such certificates of public necessity and convenience and all rights herein granted may be rescinded and ordered revoked for cause, and said Police Commission shall upon notification of said action by said Board of Supervisors revoke any and all such permits.

Section 6. That it shall be unlawful for any person, firm or corporation to operate or cause to be operated any sightseeing bus as said busses are defined in Ordinance No. 5118 (New Series) of the City and County of San Francisco, in or upon any of the public streets. highways or lanes of said City and County, unless and until such person, firm or corporation shall have received a certificate of public convenience and necessity from this Board of Supervisors of the City and County of San Francisco, after application made therefor in the manner hereinabove provided for the application for such certificates by the operators of taxicabs.

Production of Hayden's Oratorio "Messiah" at the Auditorium.

The following was presented by Supervisor McSheehy and read by the Clerk:

December 9, 1929.

To the Honorable Board of Supervisors, City and County of San Francisco, City Hall.

Gentlemen: "The Messiah" was produced in the Municipal Auditorium in 1926 and 1927. The total loss on these two productions of "The Messiah" amounted to $10,266.07.

In view of the heavy loss entailed on the proper production of this spectacle I do not think that a third production, which is contemplated this year, should be allowed. For this reason I feel justified in voting against any money being appropriated for the production.

Respectfully submitted,

JAMES B. McSHEEHY,
Chairman Auditorium Committee.

Supervisor McSheehy, in explanation of the foregoing, opposed any further production of "The Messiah" in the Civic Auditorium.

Report of Police Committee on Issuance of Certificates of Public Convenience for Taxicabs.

The following was presented, read and ordered *filed*:

San Francisco, California, December 6, 1929.

To the Honorable, the Board of Supervisors, 235 City Hall.

Gentlemen: Re proposed ordinance providing for the issuance of certificates of public convenience and necessity in connection with the issuance of licenses for the operation of taxicabs.

In recommending this ordinance for passage, your committee does so in the belief that the conditions surrounding the operation of taxicabs should be stabilized; that the Board of Supervisors should have jurisdiction over the issuance of such taxicab permits for the purpose of assuring the financial responsibility of persons and firms so operating taxicabs; that this ordinance will alleviate traffic congestion and eliminate parking space.

Realizing that the phrase "public necessity and convenience" is broad and general in scope and vests the Board of Supervisors with discretionary powers in the construction thereof, this committee expresses its understanding and desire that in subsequent constructions of said phrase that the right of persons to use taxicabs operated under union conditions shall be preserved and protected, and in the event of a strike or lockout by a sufficient number of owners and holders of said taxicab permits and taxicabs as to deprive union people and their sympathizers of the opportunity to patronize taxicabs operated under union conditions, that said phrase be so construed as to grant a permit or sufficient permits so that the necessity and convenience of union people and their sympathizers be served.

Respectfully submitted,
POLICE AND LICENSES COMMITTEE,
By SYLVESTER ANDRIANO, Chairman.
CHAS. F. TODD, Member.
MILO KENT, Member.

Discussion.

After roll call, the following proceedings were had in relation to a resolution accepting the offer of the Spring Valley Water Company to sell certain of its properties to the City and County of San Francisco for the sum of $41,000,000, and a resolution authorizing the issuance of interim certificates covering the sale of $41,000,000 worth of bonds to consummate said purchase to the Bank of Italy.

The subject-matter was discussed by his Honor the Mayor and explained by Supervisor Havenner, chairman of the Finance Committee, and by Louis Ferrari, chief counsel for the Bank of Italy. The following transcript of the proceedings was ordered spread in the Journal and a copy sent to Mr. A. P. Giannini:

SUPERVISOR HAVENNER: Mr. Mayor, I would like to ask for the privilege, out of order, of presenting to the Board an outline of a plan submitted by a syndicate, headed by the Bank of Italy, for the purchase of the $41,000,000 Spring Valley bonds voted by the people of San Francisco in May, 1928. It is necessary at this time to acquaint the members of the present Board and the members of the new Board with the details of the plan because it involves, in effect, a gentlemen's agreement on the part of the elected officials of San Francisco and a purchasing syndicate to carry out certain corollary agreements now and in the future. The plan, which has been very thoroughly explained in the daily press, is, in substance, as follows: The purchasing syndicate, headed by the Bank of Italy, has agreed to make a firm offer to the Treasurer of San Francisco of $41,000,000 and accrued interest for the bonds which are now on the counter in the Treasurer's office. The purchasing syndicate stipulates that the City should agree to take over the properties of the Spring Valley Water Company on the 2nd day of March, 1930. The purpose of fixing the date of that particular time, very frankly, is to enable the purchasing syndicate to carry on an agreement or an arrangement with the trustees of the outstanding Spring Valley Water Company's bonds, $22,000,000 in amount, carrying 5 per cent interest, whereby the redemption price of those bonds can be held on deposit until the next call date of those bonds thereafter, which would be November 1, 1930. Through that arrangement which the purchasing syndicate in this case has effected with the trustees of the Spring Valley Water Company's bonds, they will be enabled to put this money out at interest and to earn a certain sum on the deposit which they say will be necessary to recompense them for the discount at which they will be obliged to sell San Francisco's bonds on the present market. It has been stated by us to the representatives of the syndicate that San Francisco's bonds, in the amount of $41,000,000—and we must all remember that it is impossible for us to sell any part of these bonds other than the whole amount at one time, because, as has been explained repeatedly in this Board, if we were to sell only a portion of the $41,000,000 of the Spring Valley Water Company's bonds we would merely be obliged to pay interest on those bonds, and we would not be able to acquire the properties until we had disposed of the entire amount voted for that purpose, and we would simply be paying interest without any assurance at all that we would eventually be able to consummate the entire transaction. There-

fore, it has been necessary for the City to wait until a firm offer was made for the entire lot of $41,000,000 of Spring Valley Water Company's bonds. Under the interpretation of the optional agreement, made by the State Railroad Commission about a year ago, when the terms of the Spring Valley Water Company purchase were under discussion by representatives of the City and of the company, the Railroad Commission upheld the contention of the company's attorneys that the City would be obligated to pay the interest on the $22,000,000 outstanding Spring Valley Water Company's 5 per cent bonds, from any date when the actual transfer of properties to the City might be effected until the next legal redemption date of the Spring Valley Water Company's bond issue. It will be necessary, therefore, under the terms of this plan, when the actual payment of the money is made to the Spring Valley Water Company and its trustee, if the City agrees to take over these properties on the 2nd day of March, it will be necessary at that time to deposit with the trustee of the Spring Valley Water Company, the Wells Fargo Bank, I believe, $22,000,000, the face value of the 5 per cent bonds, and 5 per cent interest on that amount from the date of the transfer of the properties to the City, on March 2nd, as is proposed here, until November 1, 1930, a period of about eight months.

SUPERVISOR STANTON: Will you repeat that again, Supervisor?

SUPERVISOR HAVENNER: It will be necessary, under the optional agreement, as construed by the Railroad Commission, for the City to pay the Spring Valley Water Company, and its trustee, on the 2nd day of March, in addition to the company's equity for its stock, $22,000,000, representing the face value of the outstanding Spring Valley Water Company's 5 per cent bonds and interest on that money, at 5 per cent, until November 1, 1930, a period of about eight months, and will represent—— Mr. Ellis, can you give me the exact figure?

MR. ELLIS: $733,000.

SUPERVISOR HAVENNER: $733,000, approximately.

SUPERVISOR STANTON: And interest?

SUPERVISOR HAVENNER: Yes. Now, as you gentlemen are all aware, we have been trying vainly for the past year, as a matter of fact, I think it was just about a year ago that this Board, after the engineering and accounting details of the negotiations between the City and the Spring Walley Water Company had finally been completed—Mr. Clerk, this resolution was adopted on January 4th?

THE CLERK: Adopted on December 24th.

SUPERVISOR HAVENNER: On December 24th, last year, this Board of Supervisors adopted the resolution advertising the Spring Valley Water bond issue for sale. As you are all aware, we failed to get an offer on the day set for the sale of the bonds. Immediately thereafter this Board by resolution placed the entire amount of $41,000,000 on the counter in the Treasurer's office, and they have been there available for sale during all the time which has intervened, practically eleven months. The figures, which I will be glad to have Mr. Ellis, as the accountant for the City, give to all of the members of the Board—I believe you have made arrangements to do that, have you, Mr. Ellis?

MR. ELLIS: Yes.

SUPERVISOR HAVENNER: And to the new members. Have they been distributed?

MR. ELLIS: Yes.

SUPERVISOR HAVENNER: Your estimate, Mr. Ellis, of the net profit to the City and County of San Francisco, after payment of all charges, is approximately, for the operation of the Spring Valley Water Company's properties, $1,300,000 a year, is that correct?

MR. ELLIS: After the 1st of July, 1930.

SUPERVISOR HAVENNER: After the 1st of July. In the meantime, as Mr. Ellis will explain to the members, because of certain

credits that have already been made to the Spring Valley Water Company, the City would enjoy, between the 1st of March and the 1st of July, a disproportionately large income, that is correct, is it not?

MR. ELLIS: That is correct.

SUPERVISOR HAVENNER: Mr. Ellis has prepared a statement which will show that the City's income from the operation of the Spring Valley will be in excess of the additional interest charge the City would have to assume for the six months' period, from May 1st to November 1st. During the year that has elapsed the City has therefore been deprived, by reason of our inability to sell these bonds and our inability to acquire possession of these properties, which was due, as you all know, entirely to the abnormal condition of the bond market, the City has been deprived of a revenue, which it would otherwise have enjoyed, of 11/12th of $1,300,000, net. I may say that there have been repeated discussions, by his Honor, the Mayor, the City Engineer, the City Attorney, members of the Finance Committee, and the City Treasurer, of the situation with which the City has been confronted during these eleven months. We have been in negotiation with various banks and syndicates of bond houses, from time to time, when the market was taking a temporary turn upwards, and there appeared to be some slight possibility that we might receive an offer, but at no time until the past week have we been given any assurance that a firm offer of par and accrued interest would be made to the City Treasurer. It has been the opinion of the officials of the City who have participated in these conferences that, in view of the long wait that has occurred, in view of the uncertainty whether we would receive a better offer if we did wait—and we might as well all face it very frankly: There is a possibility that some critics might come along and say, "Well, you made a mistake, if you had waited until the market went up we would have been better off, we would have saved this interest amount." I think the members of the Board ought to face that condition very frankly, that is a possibility and that is the only possibility in this whole situation. This becomes a question of judgment, as to whether we shall accept this, the first legal offer that has been made to the City for the purchase of this large block of bonds, the first legal opportunity that has come to us in almost a year to acquire possession of these valuable properties. Those of us who have been through this situation for the past year are of the opinion that we ought to accept this offer, and that we ought not to gamble on the future of this market, even assuming the possibility, admitting the possibility, that, if we did so gamble, we might receive a better offer in the future.

On the other hand, if we did not receive a better offer, between now and the 2nd day of March, the City is confronted with the necessity of retiring $1,000,000 of this $41,000,000 bond issue, which was authorized in May, 1928, on the 1st of next July. The provisions of the bond ordinance require the retirement of $1,000,000 worth of bonds at that time. If, I say, we did not receive, between now and the 2nd day of March, another better offer for these bonds, we would be confronted with the necessity of retiring $1,000,000 worth of those bonds, which would give us only $40,000,00 for the purchase of the Spring Valley properties, and it is conceivable that, under adverse conditions of the market, that $40,000,000 might not be sufficient to swing this deal between now and the expiration of the option. We would be jeopardizing, very seriously, if we took that chance and a better offer did not materialize, the possibility of effecting the purchase of the Spring Valley Water Company.

SUPERVISOR SHANNON: That $1,000,000 would be required to retire $1,000,000 worth of bonds?

SUPERVISOR HAVENNER: The Spring Valley Water bond ordinance requires that the retirement shall begin at the rate of $1,000,000 a year on July 1, 1930. So, in any event, we would be obliged to

retire $1,000,000 of these bonds on July 1st next. Now, it so happens, by reason of credits that have accrued to the City since a year ago, or since a year and a half ago—more than that—since two years ago next April when the computations were made for the submission of the Spring Valley Water bond issue to the people, by reason of the credits which have accrued to the City, under the terms of the option to purchase as approved by the Railroad Commission, and its ancillary orders, the total purchase price of the Spring Valley Water Company has been progressively decreased and today we would pay, on March 2nd we would pay to the Spring Valley Water Company, for its stockholders' interest, $17,256,000. In addition to that, as I explained before, we would have to pay to the trustee of the Spring Valley Water Company's bonds $22,000,000, and interest to the next call date. Mr. Ellis' estimate of the total amount that we would have to pay to the Spring Valley Water Company and to the trustee of the bonds is $39,989,000. That would be approximately the total amount which would be paid out by the City on the 2nd day of March, and in exchange for which the City would get a clear and good title to the Spring Valley Water Company's properties on that day. That would leave approximately $1,011,000 in the Spring Valley Water Company purchase bond fund, and that $1,011,000 would be used, $1,000,000 of that amount would be used to retire these first bonds on the 1st of July, and would not necessitate an additional charge on the taxpayers for that amount.

Now, this, briefly, is the plan which has been presented. The $39,989,000 figure which I have just quoted to you includes 5 per cent interest on the outstanding Spring Valley bonds until November 1st next. So that after that interest is paid, up till November 1st next, the City would still have, in the Spring Valley Water purchase bond fund, $1,011,000, approximately.

SUPERVISOR GALLAGHER: Are you finished?

SUPERVISOR HAVENNER: I am except to yield to any questions. I desire to introduce a resolution. I am finished unless somebody wishes to ask questions.

SUPERVISOR COLMAN: Explain to us the parliamentary situation. What legislation is necessary? Does this Board consummate the deal, or what is the situation?

SUPERVISOR HAVENNER: The Board does not consummate the deal. The bonds are in the possession of the City Treasurer, under legal authority from this Board, and he is empowered to accept a bid at par and accrued interest at any time the money is laid on the counter. In order to assure the carrying out of the corollary agreement, the City Attorney advises me that it would be necessary, at this time, for the Board of Supervisors to adopt a resolution accepting the amended offer of the Spring Valley Water Company, and resolving that the purchase of the properties should be consummated on March 2nd. Also, because of the fact that all the Spring Valley Water Company's bonds have not yet been signed, and in order that this deal could go through today, the representatives of the syndicate would want immediate delivery, either of the bonds or of their legal equivalent, the City Attorney has recommended that this Board today adopt a resolution authorizing the Mayor and the Treasurer to execute interim certificates which will be our legal receipt for the bonds until they are delivered to the syndicate when they are properly signed. Those are the two legal legislative steps which the City Attorney advises me it is necessary be taken today.

SUPERVISOR GALLAGHER: You probably recited it before, and I think the papers have carried the word through you, Mr. Mayor, but would you repeat again, if you did this morning, the names of the Municipal officers or executives that have agreed with you on this arrangement.

SUPERVISOR HAVENNER: The first conference held was attended by the Mayor, the City Attorney, the City Engineer, the City Treasurer, Mr. Ellis and myself. The second conference, all of those officials were again in attendance and Mr. Rossi was invited to be present, Supervisor Rossi.

THE MAYOR: And former Chief Justice Matt I. Sullivan.

SUPERVISOR HAVENNER: And Judge Matt I. Sullivan.

SUPERVISOR GALLAGHER: And by all those members of the Government who were present, except in the case of the City Attorney, the offer is deemed a fair one to the City and is recommended?

SUPERVISOR HAVENNER: I think all of the City officials present so expressed themselves. Mr. Mayor, I have not heard Judge Sullivan's final expression of opinion.

THE MAYOR: They did, including Judge Sullivan.

SUPERVISOR GALLAGHER: They all recommended it?

THE MAYOR: Yes.

SUPERVISOR GALLAGHER: Question.

THE MAYOR: The question is the introduction of the resolution by the Supervisor.

SUPERVISOR HAVENNER: Is there any other question any Supervisor desires to ask? I will be very glad, indeed, if any one of the newly-elected Supervisors desires any further information that I can give to answer any question.

SUPERVISOR GALLAGHER: I second the motion that Messrs. Rossi, Power, Miles, Peyser and Spaulding be given the privilege of the floor, if they desire it.

THE MAYOR: So ordered.

SUPERVISOR-ELECT ROSSI: Mr. Mayor, I do not desire to ask any questions, but being a Supervisor-elect, and not taking part in any official action that may take place here today, I feel that it might be well for me to make a statement as to how I was called in to this conference, for the benefit of the newly-elected members of the Board. On last Thursday afternoon Mr. Ferrari 'phoned me and said that he had tendered a bid, or was about to tender a bid, for the $41,000,000 bonds of the City and County of San Francisco, and he would like to talk the matter over with me, to get my reaction, having in mind, of course, that as a Supervisor-elect I would take office on January 6th. I called in his office that afternoon and he presented me a copy of the bid that he was going to present to the City officials. I went over the matter with him and I told him that I would like to take that home with me and go over it and study it, which I did. And the next day he informed me that I was to be invited to this particular conference. I received a notice from the Mayor's office the next day to attend a conference, and I likewise received an invitation from Supervisor Havenner. I attended that conference, and the matter was discussed, and it was agreed, among all those present, that the proposition looked good upon the face of it, but that we wanted a set-up of figures that would show exactly in what position the City would be, and likewise the City was to meet its obligations by way of interest, and likewise the redemption of the $1,000,000 of bonds due on June 30th or July 1st next year. We adjourned with that understanding. The next day Mr. Randall Ellis had a statement prepared, and, upon reading that statement, I was thoroughly convinced, for myself, that the offer was a very good one, in fact, the only offer that was made by any one to take these bonds, and I was in hearty accord with the acceptance of the offer, provided no better offer was presented before this morning. I suggested at that time, as we were informed by the City and County Attorney that the necessary legislation should be passed by this present Board and likewise legislation passed by the incoming Board, that it might be well to call in the Supervisors-elect to sit in at this particular time, and that is the reason why the new members are

here to hear this matter discussed. As I see it, the only difference is this: The Bank of Italy, representing some syndicate, is paying par for those bonds with accrued interest. The only difference that I can see is that this Board of Supervisors, or the duly authorized officials, are deferring taking over the property until March 2nd, and that will make a difference in the interest rate. It will make a difference approximately of $550,000 to the City. If the City officials in authority were to put through legislation in all possible haste this property could be acquired by February 15th—

SUPERVISOR HAVENNER (interrupting): That is, provided that we had a bid.

SUPERVISOR-ELECT ROSSI: That is understood, I understand that very well. That is why I say it is a splendid proposition. But by deferring taking over the property until March 2nd, it will enable the City to take possession of the property at that time, and also to receive the benefit of a profit that the City will be making by owning the properties of the Spring Valley Water Company. There was a statement made here that the profit of the City, the net profit, would be $1,300,000. That would be really the net profit after deducting bond redemption, which would amount to over $83,000 a month. So, as a matter of fact, the City is receiving about $200,000 a month, which would be $2,400,000 a year. So by taking over the property it will only be a matter of about three months until the City will be in the same position as if it had an offer as of December 16th, today, and could put through legislation at the earliest possible time. Now, by delaying it you are only gambling for practically about two weeks, that is all, and here you have a bona fide and a legitimate offer, and I think you would make a serious mistake if this offer were not accepted. The City, as I said before, will acquire the property on March 2nd, and they are taking over a going concern. As Supervisor Havenner has told you, there was a provision made there to redeem a million dollars' worth of bonds, and also to take care of the additional interest. So, to my way of thinking, we were very fortunate indeed to have an enterprising institution which would take such a proposition. I am satisfied they are doing it out of civic pride, and by accepting this offer, it will no doubt create a better feeling of confidence in San Francisco, and we will possibly have a better bid to sell the remaining bonds that are now for sale on the counter of the City Treasurer. I, for one, am heartily in favor of it and will do all that I possibly can to carry the proposition out.

THE MAYOR: Gentlemen of the Board: Another feature of this transaction which has impressed itself upon my mind is that, if this offer had not come forward, or we had not sold our bonds at 4½ per cent interest, I think the Board of Supervisors were on the eve of increasing the rate of interest to 5 per cent in order to dispose of the bonds. If we had increased the rate of interest to 5 per cent our loss in interest, over a period of 40 years, on a 5 per cent bond interest, would have been approximately $4,000,000. Now, above all things, it is of paramount importance to acquire these properties and to operate them as soon as possible. We have to have a place in which we can store the waters of Hetch Hetchy, within two and a half years' time. We make $1,300,000 a year net on the operation of these properties, and the trifling amount of money which will be temporarily expended, in order to acquire the properties and keep the bonds at a 4½ per cent basis is infinitesimal compared with what we would be up against if we gambled on this market. With over $40,000,000,000—more than the cost of the prosecution of the war—lost to the American people in the decline of stocks, those who bought and sold on margins were wiped out. When that $40,000,000,000 of value is going to come back again, nobody knows, and this panic condition might continue. The rates of interest might rise, money might be drawn from other sources and there might not be the money to invest in 4½ per cent bonds.

And in the opinion of the Committee, as we discussed it, the wisest course to pursue is to take this offer, which is within the law and which has the approval of the City Attorney, every feature of it. We know where we stand, and we get clear title to the property on the 2nd day of March, and begin our operations. And it has also been passed upon by the attorneys in New York, the City Attorney having wired them setting forth the entire proposition. So we have the best legal advice we can get. I believe it meets with the approval of former Chief Justice Sullivan because I know the City Attorney has conferred with him. We are not gambling on the people's money, and we are selling our bonds at 4½ per cent and accrued interest, and we get the properties on the 2nd day of March.

SUPERVISOR HAYDEN: Mr. Chairman, I think, for the record, it would be well if we had a legal summary by the City Attorney of this transaction.

CITY ATTORNEY O'TOOLE: In what respect, what particular point do you wish to be advised on?

SUPERVISOR HAYDEN: On the whole procedure, Mr. Chairman. We have heard, of course, through Supervisor Havenner and the Mayor, who are part of the City Government at this time, and also from Supervisor-elect Rossi. This is all done, of course, under your advice, and we are following your opinion on the matter, and it would be well for that opinion to be made a part of the record, in a brief way.

CITY ATTORNEY O'TOOLE: It is more a financial transaction than a legal one. As the Mayor has told you, our bond attorneys in New York have approved the plan and have agreed that, if we should accept the offer of the Spring Valley Water Company, that they will issue their certificate, approving the sale of the bonds, if they be purchased over the counter from the Treasurer today. I do not think there is any question as to the legality of the procedure. Under our option, or under the offer made by the Spring Valley Water Company on March 2, 1928, before this bond issue was voted, we were obligated to deposit with the company, or include in the purchase price, an amount sufficient to take care of the interest on their mortgage bonds, from the date we took over the properties until the date on which those bonds could be paid. Now, those bonds can be called and paid only on an interest date. The interest dates of the Spring Valley 5s are the 1st of May and the 1st of November. Under their trust deed and the conditions in their bonds, why, they can call the bonds, if the City becomes the purchaser of the properties, by giving the bondholders 60 days' notice. Now, it could very easily happen that, if we sold the bonds, we will say, on the 15th of January—suppose this offer could not be given consideration at this time—and we sold the bonds on the 15th of January, we would possibly run over to the 15th of March before we could get a complete accounting between the City and the Spring Valley Water Company and determine the exact amount of the purchase price. In other words, we could not take over the properties until the 15th of March, and that being the case, when we came to pay off the bond mortgage of the Spring Valley Water Company, we would have to pay to the Union Trust Company, which is the trustee, the interest from the 15th of March to the following November because the 15th of March will be less than 60 days away from the 1st of May. Now, we would have to get a title, free and clear from all encumbrances, which we must get from the Spring Valley Water Company before we pay them any of our money at all, and to do that carries with it the necessity of paying off that particular bond mortgage. The Spring Valley Water Company has taken the position, and the Railroad Commission has agreed with them, that, when we take over the properties, we are responsible for that bond interest on their mortgage from that day on. In other words, if we enjoy the profits, why, we should bear the burdens of the property up to the time that the mortgage should be paid off. Now, I do not

believe there is any question as to the legality of it. We have to get a clear title, and any amount of money we have to put up to get a clear title I think is a proper expenditure to be made by the City. As I say, in any event you would have to put up 60 days' interest on the Spring Valley 5s. If we consummated the deal 90 days before a call date, we would have to put up 90 days' interest. If it was four months before a call date we would have to put four months' interest, and so on. It does happen that this is being consummated March 2nd, practically eight months before a call date, or just a few days after the earlier call date, and therefore that accounts for putting up a larger amount of interest. As Supervisor-elect Rossi and Supervisor Havenner have told you, they have looked upon it as a good financial transaction for the City, by reason of the fact that the City will take in more money than it will pay out. As to the legality of it, when the matter is finally consummated, the titles will be clear, and the amount of credits which exists between the City and the Company will be checked by the Engineer's office, and by my office, and the final figure will be submitted to this Board for its approval, and that procedure has received the approval of Thompson, Wood & Hoffman, because I sent them a wire on Saturday afternoon, outlining that procedure, and I received a reply this morning, saying that if this Board saw fit today to accept the offer of the Spring Valley Water Company, why, it will be perfectly satisfactory that the final figure be determined at some future date when the complete accounting can be had between the City and the Company to determine the exact credits which exists between each of them.

SUPERVISOR HAYDEN: Further than that, I would like to ask the City Attorney: These resolutions have been prepared on your advice?

CITY ATTORNEY O'TOOLE: The resolution that Supervisor Havenner has.

SUPERVISOR HAYDEN: These resolutions were prepared at the instance of the City Attorney?

CITY ATTORNEY O'TOOLE: One was prepared at the suggestion of Thompson, Wood & Hoffman, New York bond attorneys, that was the one providing for interim certificates, the other one was prepared on the suggestion made by Thompson, Wood & Hoffman, that, if we were going to consummate the deal at this time, that the Spring Valley Water Company's offer should be accepted by this Board.

SUPERVISOR HAYDEN: Does that put the Board in the position of ratifying this transaction, the adoption of these resolutions, is that the purpose of it?

CITY ATTORNEY O'TOOLE: It puts the Board practically in this position: That the offer of the Spring Valley Water Company is accepted, to be consummated as of the second day of March, as of the second day of March, 1930, this Board reserving the right to at all times determine the final figure. In other words, this Board, even on the advice of the City Engineer and the City Attorney, would be the final judges of what credits should be allowed between the City and the Company on the different funds that are set up, and in which the City has an interest.

SUPERVISOR-ELECT POWER: I want to ask if the legal representatives on bond matters in New York agree with you that it is perfectly proper for this Board to make a commitment to take effect on March the second, notwithstanding the change of personnel on January 6th?

CITY ATTORNEY O'TOOLE: They have so advised me. The whole matter was presented to them by a very lengthy telegram, and they wired back that they saw no objection to the proposition.

SUPERVISOR-ELECT POWER: They understand the charge of the personnel of the Board?

CITY ATTORNEY O'TOOLE: I could get you the telegram and read it. It explains it extremely fully.

SUPERVISOR COLMAN: I think it is safe to say that in the entire history of San Francisco there never has been a matter that really meant so much to the citizens of San Francisco or to the future of the City as does the consummation of this deal. After all, the City is limited directly and its progress depends directly upon its water supply. There is no substitute for it and without an adequate water supply a city stands still. By this act, we are going to give to the people of San Francisco a splendid distributing plant which, when the waters of Hetch Hetchy come in, will give us, forever, a supply of water for five million people.

SUPERVISOR HAYDEN: Ten.

SUPERVISOR COLMAN: Ten million people; I accept the correction gladly. I think we begin to realize the magnitude and importance of what has transpired within the past few days. I can see no reason that should make us hesitate, as long as the legality of the offer is vouched for, without question, not only by our own attorney, but by our New York attorneys. As has been well said, we can no longer gamble on the viscissitudes of the bond market. In my opinion, the likelihood of criticism is going to be extremely small, even should there be an improvement in the bond market, because each day that we wait, we are losing the profits of the enterprise, and each year we face the very pleasant condition of an increase in the water business, with a corresponding decrease in expense caused by the saving of interest due to the bond redemption which takes place each year. Now, it is a very wonderful thing, too, to note the splendid cooperation between the officials of the City and the leaders of our financial institutions. This cooperation means a great deal to San Francisco, and I think that this is the third instance of it within a comparatively short time. This is a very happy condition which augurs well for the future prosperity of the City. As I say, I can see no reason at all to hesitate, in fact, I feel profoundly grateful that this dream of ours that we have had for many years, of owning our own water system, is at last about to come true. We have been one of the very few large cities—possibly there is only one other—that do not own their own water systems. So this Board really is making history today, and I think the members can be very proud of having a part in passing this legislation.

THE MAYOR: Before the resolution is introduced, I have just noticed several Bank of Italy officials come into the Supervisors' Chambers. Mr. Louis Ferrari, will you kindly come forward and bring your associates forward, and we will give you seats of honor for this occasion. Mr. Ferrari, Mr. Leimert and Mr. Kelly, will you all come forward, please. I want you to see how big the Bank of Italy really is. I see two more officials. Will you please come forward?

(The officials of the Bank of Italy come to Mayor's rostrum.)

THE MAYOR: Gentlemen of the Board, and my fellow citizens, I present to you Mr. Louis Ferrari, the General Counsel of the Bank of Italy; Mr. Leimert, in charge of the bond transactions of the Bank; and Mr. Kelly, private secretary to Mr. Giannini. (Applause.)

SUPERVISOR GALLAGHER: I call for the reading of the resolution, Mr. Mayor.

THE MAYOR: Mr. Havenner, have you the resolution ready?

SUPERVISOR HAVENNER: I would like to move suspension of the rules at this time.

SUPERVISOR HAYDEN: Second the motion.

THE MAYOR: No objection, so ordered.

SUPERVISOR HAVENNER: Mr. Mayor, I would like to introduce the following resolution:

THE CLERK (Reading):

"Resolved, That the City and County of San Francisco accept the offer dated March 22nd, 1928, made to the Board of Supervisors of said

City and County by the Spring Valley Water Company, to sell to the City its plant and operative properties more particularly described in said offer, the total amount to be paid by the City to said Spirng Valley Water Company for said plant and properties to be determined by accounting and adjustment between the officials of said Company and the City Engineer and the City Attorney representing the City and County and when so determined to be finally approved by the Board, which said sum shall in no case exceed the sum of $41,000,000, the amount of the bond issue hereinbefore approved by the electors of the City and County for the purchase of said properties, said sum as finally determined to be payable upon delivery by said Spring Valley Water Company of instruments of conveyance conveying to the City the plant and properties described in said offer, free and clear of all incumbrances; and be it

"Further Resolved, That the purchase of said plant and properties be consummated and said properties be taken over by the City on the 2nd day of March, 1930."

SUPERVISOR HAVENNER: Mr. Mayor, I move adoption of the resolution.

SUPERVISOR HAYDEN: Second the motion.

THE MAYOR: Gentlemen of the Board, it has been moved and seconded that this resolution be adopted. Are there any Supervisors who desire to speak?

SUPERVISOR GALLAGHER: Mr. Chairman, I want to at this time, now that the subject matter is officially before us, to offer my commendation and congratulations to all of those who have worked out this offer. If any member of the Board of Supervisors who sits in this morning session, even those members who may not be with us in a few weeks, needs any crowning glory to his acts as a member of the Board, this, I am sure, must be a source of immense satisfaction. There are those who anticipate that the bond market will go up. There are those who say that the offer accepted at this time would, if we waited, probably bring to us more in the way of compensation. We do not know that that is so. We do know that we have waited here for bond markets to enliven and for bond markets to go up, and if I may use the expression without intending to be slangy, we have been left "holding the bag". If your minds can travel back for just a minute over the tortuous trail of this Spring Valley Water purchase, and the consummation of this deal, I think that those who fought on either side of that question, and so often, those who fought for the purchase of these properties at prices much lower in the past than now have cause, of course, for enthusiasm and for satisfaction. Those who fought against its purchase can have at least the gratification that that fight is over, and they must now turn themselves to fighting us on other lines when it comes to the question of Municipal ownership of public utilities and the right of San Francisco to fight out her destinies with the enemies of that principle. Mr. Colman, I think, very aptly put it this morning when he said that the settlement of this matter was, as of course it is, a jewel in the crown of San Francisco. And it is more than that: It is going to have a tremendous effect on her industrial welfare, it is going to permit us to settle many questions involving our own and sister counties, and permit us to deal with the people knocking at our doors asking for something in the way of agreements and legislation that will settle their water problems for the future. I want to, as I said in the beginning, offer my congratulations to all of your officers and those members of the Board who, more particularly than myself I know, had a part in this consummation. I think a word at this time relative to the Bank in question is proper. Nobody that has known the head of that institution, that is, its former head and the one whom we recognize, of course, as in the forefront of its activities, has ever had the slightest doubt of two things: first, his love for San Francisco, and, second, his

democracy in the financial affairs with which he dealt and which affected the City itself and the people generally. And I think that we must, if we look behind the veil a bit, recognize that in this action Mr. Giannini, and his associates, have had more than a cold financial eye to give to this question. Generally, when you meet bankers, you are reminded of the Dead Sea. At least, it is so represented by men who tried to borrow. But in a case like this, you would find this institution, I think, if you would open a few more doors, making up its mind first, before it came to us, and then coming to us, after making up its mind that San Francisco's destiny and future were so wrapped up in matters of this kind and of this magnitude, that perhaps they stretched their financial rigidity to a point that they need not do at this moment. Whether we like it or no, there is not any question that in the future, in the years to come, the name of the Bank of Italy must be written in large letters, not only during the past history of San Francisco, but as to her future history. A millstone around our neck is about to be released, an impediment in the way of industrial progress and our business welfare is about to be removed. We are about to reach the top of one of the great mountains that the City has had to climb and upon which climb her people have been obstructed at every turn of the road. And, as I say, the fact that this is consummated permits us to go on to other tasks. And I again extend my congratulations to all of you who must have done a great deal of thinking, who must have done a great deal of urging, and who must have done a good deal of maneuvering to bring this to success. I am going to suggest briefly before I take my seat—I will not make any motion now, because it would conflict, parliamentarily, with that which is before us—I am going to suggest to your Honor, and I do it respectfully, and I hope you might comply, and I am sure the Board will, that, when this resolution is adopted, when the financial and legal features of this matter are consummated, at least as far as they can be, that you agree, Mr. Mayor, to appoint a committee of citizens, friends of Municipal ownership, who will fittingly celebrate this, one of the epochal events in the life of a great City and its people. I trust you will do that. It ought to be done. If there is anything that has been worth while celebrating around here, as much as the taking over of the Geary Street Railroad Company and, of course, the inauguration of work on Hetch Hetchy, this is one of the things that should be celebrated. And I think it is gratifying to find here present this morning, unofficially, the men who will, in their official capacity, in a short time put the final ribbons in this arrangement that is being made, the gentlemen who will, in the next year, adopt some of the legislation that must carry on. I think it is a hopeful sign that these gentlemen who will take up their official responsibilities and duties in January, and which would be soon enough for the ordinary man knowing the troubles that will be theirs, are willing to help out in the ones that we have had, and I think they ought to be congratulated on the fact that they have shown up here in such numbers this morning and with such a spirit. And I tender these Supervisors-elect my congratulations and my thanks, as a member of this Board, for being present.

SUPERVISOR HAVENNER: I would like to ask for a roll call on the resolution.

THE MAYOR: I would like to ask the Sergeant-at-Arms if he would step outside and call Mr. McSheehy's attention to the fact that we are about to have a roll call. I am sure he wants to vote "Yes" on this resolution.

SUPERVISOR RONCOVIERI: Mr. Mayor, I believe we should have an expression of opinion from the incoming members of the Board. We have heard from Supervisor-elect Rossi. I, for one, would like to hear from the other newly-elected members present what their reaction is to what they have heard this morning.

THE MAYOR: I would respectfully suggest, Mr. Roncovieri, that we do not encumber the records this morning with encomiums of praise and thanksgiving until after the roll call has been taken.

SUPERVISOR RONCOVIERI: It is not in that sense, Mr. Chairman.

THE MAYOR: After the roll call. We do not know whether it is going through yet or not. Are there any other members of the Board who are in City who could be obtained? Mr. Powers.

THE CLERK: Out of town.
THE MAYOR: Mr. Todd.
THE CLERK: Out of town.
THE MAYOR: Mr. Suhr.
THE CLERK: Out of town.

THE MAYOR: Mr. McSheehy, we are about to call the roll on the resolution introduced by Supervisor Havenner, and I knew you wanted to be present on the roll call.

THE CLERK: Roll call.
SUPERVISOR ANDRIANO: Aye.
SUPERVISOR COLMAN: Aye.
SUPERVISOR DEASY: Aye.
SUPERVISOR GALLAGHER: Aye.
SUPERVISOR HAVENNER: Aye.
SUPERVISOR HAYDEN: Aye.
SUPERVISOR KENT: Aye.
SUPERVISOR MARKS: Aye.
SUPERVISOR McGOVERN: Aye.
SUPERVISOR McSHEEHY: Aye.
SUPERVISOR POWERS: Absent.
SUPERVISOR RONCOVIERI: Aye.
SUPERVISOR SCHMIDT: Aye.
SUPERVISOR SHANNON: Aye.
SUPERVISOR STANTON: Aye.
SUPERVISOR SUHR. Absent.
SUPERVISOR TODD: Absent.
SUPERVISOR TONER: Aye.
THE CLERK: 15 ayes, 3 absent.

THE MAYOR: The ayes have it and it is so ordered. Probably the new members of the Board would like to have the honor—

SUPERVISOR SCHMIDT (interrupting): There is another resolution.

THE MAYOR: Would the members of the new Board-elect like to record themselves on this vote here this morning? Mr. Rossi, do you wish to be recorded? This is a roll of honor this morning, the acquiring of the Spring Valley Water Company and the doing away with a matter that has been the football of politics in this City for half a century. This is the most noted roll call that has ever taken place in the Board of Supervisors of this City, and it is a day of honor and a day of rejoicing. It is an honor to have your vote recorded in the matter of the acquiring, by the City, of its own water works. Mr. Gallagher, very aptly and very thoughtfully and well, expressed himself that there is now behind us what has heretofore been the ghost of almost every man that entered public life: Was he tarred with Spring Valley or was he not? Men have been defeated in the past because they were thought to have some interest in the Spring Valley Water Company. No more bitter contests have ever been waged in the fields of political battle than in the question of the acquiring of the properties of the Spring Valley Water Company, and if you desire your names on the roll of honor, of getting it behind us, and having these properties owned by the people of San Francisco, I just respectfully ask if the five new members of the Board would like to record themselves on this roll of honor today?

SUPERVISOR-ELECT MILES: Mr. Mayor, I would like to state my sentiments, and that is this: That I am heartily in accord with the action of the Board this morning.

SUPERVISOR-ELECT POWER: Mr. Mayor, I will say, were I a member of the Board at this time, I would look upon this proposition the same as any board of directors of a large corporation would. If they were confronted with the same situation that San Francisco has been in the past, and especially in the last 15 months, they would support this proposition, and I am heartily in accord with it.

SUPERVISOR-ELECT PEYSER: Mr. Mayor, and members of the Board: I also wish to accept the action taken here this morning, and I think it is a great step in the progress of San Francisco.

SUPERVISOR-ELECT SPAULDING: Mr. Mayor, I likewise vote aye on this proposition.

SUPERVISOR-ELECT ROSSI: Mr. Mayor, I have nothing to add to what I have already said. I am highly elated with the result of the roll call, that all of the members present voted aye for the resolution that was just passed. All I can say is to repeat what I said before, that San Francisco is indeed fortunate to have such an enterprising institution as the Bank of Italy. I know that there is no selfish motive back of it, I know that they are not going to make any money, and that they are doing it for the City's good.

THE MAYOR: All our fellow citizens here, all in favor will please say aye.

(Ayes)

THE MAYOR: The ayes have it and it is unanimously carried.

SUPERVISOR HAVENNER: Mr. Mayor, under the suspension of the rules, I would like to introduce the following resolution.

THE MAYOR: So ordered.

THE CLERK (reading):

"Whereas, the electors of the City and County of San Francisco did, on the 1st day of May, 1928, at a special election duly called and held in said City and County on said day, by more than a two-thirds vote of said electors voting at said election, approve the incurring of a bonded indebtedness of $41,000,000.00, for the purpose of purchasing certain properties belonging to Spring Valley Water Company, more particularly described in an offer made by said Company to the Board of Supervisors on the 2nd day of March, 1928;

"And, Whereas, all of the bonds authorized to be issued at said election for the purpose above specified have not been executed by all of the officials of the City and County required by law to execute the same;

"And Whereas, said bonds authorized as aforesaid can now be sold by the Treasurer of the City and County, as heretofore authorized by this Board;

"Now, Therefore, Be It Resolved, that James Rolph, Jr., the Mayor, and Duncan C. "Be It Further Resolved, that said receipts or certificates, when executed and delivered as aforesaid, shall be exchangeable at the office of the Treasurer of the City and County for the bond or bonds which they represent, whenever said bonds are executed by all of the officials required by law to execute the same, and

....

Mayor of the City and County of San Francisco.

.....

Treasurer of the City and County of San Francisco."

THE MAYOR: What is the pleasure of the Board?

SUPERVISOR HAVENNER: Move the adoption of the resolution.

SUPERVISOR SCHMIDT: Second the motion.

THE MAYOR: Call the roll, Mr. Clerk.

THE CLERK: Roll call.

SUPERVISOR ANDRIANO: Aye.
SUPERVISOR COLMAN: Aye.

THE MAYOR: The ayes have it and it is so ordered.

SUPERVISOR GALLAGHER: Can I make two motions if those resolutions are finished?

THE MAYOR: Yes.

SUPERVISOR GALLAGHER: One, that His Honor, the Mayor, be requested to appoint a committee of our citizens to properly celebrate

the taking over of these properties, at a time which to him seems most convenient.

SUPERVISOR HAYDEN: The properties actually come over March 2nd.

SUPERVISOR GALLAGHER: The Mayor may specify another date. And, secondly, that a transcript of this record on this matter be prepared for the members of the Board, the officials participating, and the gentlemen here representing the Bank of Italy and the members-elect of the Board also present.

THE MAYOR: If there are no objections, it is so ordered.

SUPERVISOR RONCOVIERI: I would ask that the transcript be spread on the minutes in full, the transcript of everything that has been said here be printed in the minutes.

SUPERVISOR TONER: Mr. Mayor, I feel that this momentous occasion should not pass without hearing from the representatives of the Bank of Italy this morning, and that such proceedings should also be inserted in today's doings.

THE MAYOR: May I, speaking for the Board, convey to Mr. A. P. Giannini, whom we affectionately call "A. P.", through you, Mr. Louis Ferrari, and you, Mr. Leimert, and you, Mr. Kelly, the thanks and the appreciation of the people of this City for the offer which he made, so that the people of San Francisco might pay for the properties of the Spring Valley Water Company. It is seldom in the life of a big city, where the spirit of gain seems to be ahead of almost everything else, that a Native Son of this City of San Francisco, the leading financier of the world, a man whose very makeup is, doing unto others and for others without the spirit of gain for himself, a man who from his boyhood days, born in meager circumstances, has felt the force of the hard things of life and who, step by step, climbed the ladder of fame, all the time mindful of his fellow citizens' interest and the interests of the City that he loved so well, that such a man should come forward, without gain for himself, and use the influence and use the mighty financial operations of his big institution to help the City of his birth. We have grown to have an affection for A. P. Giannini, we have grown to knew the mighty giant that is within our midst, and to come forward and make this offer—because we know there is no gain in it for him—is a patriotic move on his part, as was his action the other day in purchasing the $4,000,000 worth of Hetch Hetchy bonds so that the work of Hetch Hetchy might be prosecuted to its completion. And this crowning glory of San Francisco, the acquirement of these properties, will always bear with it the name of A. P. Giannini, in bringing these properties to San Francisco, free and clear of all incumbrances. Will you convey to him, sir, the affection, the appreciation, and the expression of thanks that words fail me in attempting to give to him today, for what he has done? And as the dome of this City Hall is the loftiest dome in all the United States, the dome of the loftiest building in the United States, the dome of the mighty resurrected City which rose from its ashes in the past years, so does the figure of A. P. Giannini stand forth in the field of finance, in the field of commerce, in the field of savings banks that reach into the homes of the people. He was the protector of the stockholders of his institution when he came forward, during the greatest panic that the world has ever known, and stayed by the guns to the tune of $30,000,000 to hold up the stock of that institution. The people had confidence in him to save the situation and to save their money. The whole City today thanks him for this act and the whole City wishes him a Merry Christmas with it, too, and a cornucopia filled to overflowing with good things for A. P. Giannini for kindly interest, for the splendid manhood, for the gigantic caliber of his mind and for the noble purpose which has inspired him to let us buy and pay for the Spring Valley Water Company. Will you kindly convey that message to Mr. A. P. Giannini from the Board of Super-

visors, my fellow citizens and myself? Now, you can respond to the request of Doctor Toner in making your reply. (Applause.)

MR. FERRARI: Mr. Mayor, gentlemen of the Board of Supervisors, gentlemen of the Board of Supervisors who have been elected and have not as yet taken your seats, but who, we all hope, will make history for San Francisco, and my fellow citizens: I am sure, if the democratic A. P. Giannini were here this afternoon, he would be more overwhelmed by the things that have been said about him than we who have the pleasure and the honor of standing here this afternoon to represent him. When this project was in the making, Mr. A. P. Giannini made it quite easy for us who were burdened with the task of accomplishing the purchase of those bonds when he said to us, "This is a matter that concerns San Francisco, it is a matter that I would like to see handled." And he said, "In handling it I want to make no profit." As a matter of fact, he told us that if we could put it over, even at a loss, to do so. With those instructions it was a matter that was simplified, even though it seemed insurmountable at the start. I want to say that, from the time my associates and I took this matter in hand, we have received from other banks in San Francisco, whose help we depend upon, the heartiest co-operation. We have received from every City official with whom we have come in contact an absolutely hearty, sound, helpful co-operation. They have given us freely of their time, they have given us freely of their advice, they have done everything within their power to assist and help in this project. And it was with cooperation of that kind, with help of that kind, that we who first went into the matter, and at times came across obstacles that seemed to spell failure, obstacles that seemed to say, "You can go no farther," we were inspired to keep at the thing, to keep working, to keep devising ways and means of overcoming each obstacle until this morning I am prepared to say to you, gentlemen and ladies—ladies first, if you please—and my fellow citizens, that before this day is over we are prepared to put in a written bid with the Treasurer of the City and County of San Francisco, agreeing to take the $41,000,000 worth of bonds for cash, face value, and interest to date, and to deposit with him a good faith check, all subject to the usual legal opinions and technical matters that go with a deal of this kind. And we hope, before the day is over, to have that bid in. I now make it firm as a verbal proposition, and before the day is over it will be accompanied by a written bid, backed up by a good faith check that will make this deal an absolute certainty. I want to thank the Mayor for the kind words he has said concerning our dear Chief, as we call him, Mr. A. P. Giannini. I want to thank Supervisor Gallagher for the kind words he has said about him. And I hope that you will not consider me egotistical, I hope that you will not consider that my friendship for A. P. is so strong that it makes me go to limits that probably I should not go, but, as eloquently as they have spoken, as eloquently as I would like to speak to you, as eloquently as any of us might like to talk about that wonderful character, Mr. A. P. Giannini, I think that we would all fall far short of doing him the justice to which he is entitled. I say that this proposition today, the work and endeavor that has been put into it has been, in so far as Mr. A. P. Giannini is concerned, dictated simply by his everlasting loyalty to San Francisco and the State of California, and he felt that, unless the bonds of San Francisco moved, unless the credit of San Francisco was established so that it was second to no other city in the United States, the great things that we all expect for this beautiful City could not be accomplished, or, at least, they would have to be delayed. And it was with that aim in view, and that alone, that he told us to see if we could not work out a proposition that would make the sale of these bonds possible. And what has happened has happened just through the loyalty of one of San Francisco's most loyal sons, Mr. A. P. Giannini. I thank you. (Applause.)

THE MAYOR: And now, to crown the event with all the honor and the glory that comes to it, I give orders, right now, to raise the flag to the top of the City's flagpole full mast in honor of the purchase of the Spring Valley and A. P. Giannini. (Applause.)

SUPERVISOR HAYDEN: And turn on the lights, Mayor, tonight.

THE MAYOR: Oh, that will go along with it, certainly. The City Hall will be illuminated tonight in honor of the occasion.

SUPERVISOR TONER: Mr. Mayor, I move you that the transactions of this Board of Supervisors this morning relative to the purchase of Spring Valley be engrossed in book form, that they be signed by the Mayor, by the Board of Supervisors and by the Supervisors-elect who have voted here this morning, and that that be presented to Mr. A. P. Giannini.

THE MAYOR: Be sure the record includes the thought that the dome of the City Hall will be illuminated tonight in honor of the occasion. All in favor of Doctor Toner's motion will please say aye. (Ayes.) Contrary, no. (No response.)

THE MAYOR: Unanimously carried and so ordered. Thank you, Mr. Ferrari, and thank you, Mr. Leimert, and thank you, Mr. Kelly.

Issuance of Certificates of Public Convenience and Necessity, Taxicabs.

On recommendation of Police Committee.

Bill No. 9130, Ordinance No. 8637 (New Series), as follows:

Providing for the issuance of certificates of public convenience and necessity in connection with the issuance of licenses for the operation of taxicabs, as defined in Ordinance No. 6979 (New Series), and providing for the issuance of certificates of public convenience and necessity in connection with the operation of sightseeing buses as said buses are defined in Ordinance No. 5118 (New Series), and providing a penalty for any violation thereof.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That no license shall be issued for the operation of any taxicab, as the same is defined in Ordinance No. 6979 (New Series), unless and until the Board of Supervisors of the City and County of San Francisco shall, by resolution, declare that public convenience and necessity require the proposed taxicab service for which application for a license is made;

Provided, that such declaration of public convenience and necessity shall not be necessary,

(a) For the licensing of the same number of taxicabs licensed for operation by the applicant under the same name and colors on the day upon which this ordinance shall take effect, or the renewal of the same number of licenses annually thereafter; or

(b) For the renewal of licenses to the applicant for the number of taxicabs of the applicant for which the said Board of Supervisors shall have at any time prior to the date of application for such renewal made a declaration of public convenience and necessity.

Every person, firm or corporation holding a license authorizing the operation of a taxicab under and pursuant to the provisions of Ordinance No. 6979 (New Series) of this City and County shall within ten (10) days from the date this ordinance shall become effective, file with the Clerk of this Board of Supervisors an affidavit setting forth the number of taxicabs which it is then licensed to operate, and shall describe the colors of the same.

Section 2. In determining whether public convenience and necessity require the licensing of such taxicabs for which application may be made, the Board of Supervisors shall take into consideration whether the demands of public convenience and necessity require such proposed or such additional taxicab service within the City of San Francisco; the financial responsibility of the applicant; the number, kind and type of equipment; the schedule of maximum rates proposed to be charged; the color scheme to be used by the applicant; the increased traffic congestion and demand for increased parking space on the streets of the City which may result and whether the safe use of the streets by the public, both vehicular and pedestrian, will be preserved by the granting of such additional license, and such other relative facts as the said Board of Supervisors may deem advisable or necessary.

Section 3. Any applicant for a license to operate a taxicab in accordance with the terms of Ordinance No. 6979 (New Series), shall make proper application to this Board of Supervisors for its declaration of

the public convenience and necessity, on blanks to be furnished by the Clerk of said Board of Supervisors, and immediately upon the filing of such an application said Clerk shall cause a notice to be published in one of the leading daily newspapers of the City of San Francisco, which said notice shall be paid for in full by the applicant, and which said notice shall set forth the fact that said application has been filed for a license to operate a taxicab or taxicab business, the name of the applicant, kind of equipment, and all other information from the said application, which said Clerk may deem necessary, and notify all holders of existing taxicab licenses, that a public meeting will be held at a public place in the City of San Francisco to be designated by the said Clerk at a time not less than five (5) days nor more than fifteen (15) days after the date of the first publication of said notice, and said notice is to be published for three consecutive days. All holders of existing licenses for the operation of taxicabs shall thereupon be entitled to file any complaints in protest that said holders may see fit at the time of the holding of the investigation and hearing. The Board of Supervisors shall consider all of the complaints and protests and in conducting its hearing shall have the right to call such witnesses as it may see fit. In all of such hearings the burden of proof shall be upon the applicant to establish by clear, cogent and convincing evidence, which shall satisfy the said Board of Supervisors beyond a reasonable doubt that public convenience and necessity require such operation of the vehicle or vehicles for which the said application has been made, and that such application in all other respects should be granted.

Section 4. If the Board of Supervisors finds from its investigation and hearing that the public convenience and necessity justify the operation of the vehicle for which license is desired, it shall notify the applicant of its finding. Within sixty (60) days thereafter the applicant shall furnish to the Board of Supervisors any and all additional information which may be required, and if the said Board of Supervisors then finds that the applicant is the owner and bona fide operator of the vehicle for which license is desired, and that such vehicle complies with all of the ordinances of the City and County of San Francisco, and all of the rules and regulations enacted by the Board of Supervisors and the Police Commission of said City and County, it shall thereupon issue to said applicant a certificate of public convenience and necessity and thereupon said applicant shall deliver said certificate to the Police Commission of the City and County of San Francisco, who may thereupon, in the exercise of its discretion, vested in said Commission under and pursuant to the provision of Ordinance No. 6979 (New Series), of this City and County, grant to said applicant a license for the operation of such vehicle in accordance with the terms of said ordinance.

If the Board of Supervisors finds from such investigation and hearing that the public convenience and necessity do not justify the operation of the vehicle for which license is desired, it shall forthwith notify the applicant of said finding.

Section 5. All persons, firms or corporations within the purview of this ordinance shall regularly and daily operate his or its licensed taxicab business during each day of the licensed year to the extent reasonably necessary to meet the public demand for such taxicab service. Upon abandonment of such taxicab business, for a period of ten (10) consecutive days by an owner or operator, the Board of Supervisors shall upon hearing, after five (5) days' notice to the said applicant, thereupon direct the Police Commission of the City and County of San Francisco to revoke its said license which it may have granted to said applicant in accordance with the terms and provisions of the aforesaid Ordinance No. 6979 (New Series), and said license shall be revoked. Such permits as are herein granted shall be transferable upon written application to said Board of Supervisors and consent having been so obtained from said Board of Supervisors, and any and

all such certificates of public necessity and convenience and all rights herein granted may be rescinded and ordered revoked for cause, and said Police Commission shall upon notification of said action by said Board of Supervisors revoke any and all such permits.

Section 6. That it shall be unlawful for any person, firm or corporation to operate or cause to be operated any sightseeing bus as said busses are defined in Ordinance No. 5118 (New Series) of the City and County of San Francisco, in or upon any of the public streets, highways or lanes of said City and County, unless and until such person, firm or corporation shall have received a certificate of public convenience and necessity from this Board of Supervisors of the City and County of San Francisco, after application made therefor in the manner hereinabove provided for the application for such certificates by the operators of taxicabs.

Sightseeing busses now licensed under Ordinance No. 5118 (New Series) shall be governed by and have the benefit of the provisions of Section 1 of this ordinance. Applicants for licenses to operate sightseeing busses not licensed prior to date hereof shall, with respect to their right to operate such new and additional sightseeing busses, be governed by the same provisions of this ordinance as applies to applicants for taxicabs not theretofore licensed.

Section 7. No person, firm or corporation, after six months from date of passage of this ordinance, shall operate any motor vehicle as herein defined, unless and until such person, firm or corporation shall

(a) File with the Board of Supervisors a sworn statement showing the ability of said person, firm or corporation to pay all damages which may result from any and all accidents due to the negligent use or operation of such vehicle, and in the event such showing is unsatisfactory said Board may compel said person, firm or corporation to

(b) File with the said Board security, indemnity or bond guaranteeing the payment by said person, firm or corporation of all such damages, or

(c) Insure to a reasonable amount said person's, firm's or corporation's liability to pay such damages.

Said person, firm or corporation shall, not later than first week in July of each year, and as often as said Board of Supervisors shall, direct, file in writing upon a form prescribed by said Board of Supervisors, financial statements or statements of such insurance or indemnity or bonds or security held or secured by said person, firm or corporation.

Failure to make satisfactory proof of ability to so respond in damages shall be deemed cause for cancellation of any and all permits so to operate.

Section 8. That any person, firm or corporation violating any of the provisions of this ordinance shall be be deemed guilty of a misdemeanor and upon conviction thereof shall be punishable by fine of not more than $500 or by imprisonment in the City Jail for not more than six (6) months or by both fine and imprisonment.

Section 9. This ordinance shall take effect immediately after its passage.

Motion.

Supervisor Gallagher moved that the Supplies Committee confer with the Board of Public Works during the week, and if necessary to hire teams, to authorize them to do so.

So ordered.

Retirement of Supervisor Milton Marks.

During the afternoon session of the Board, and with Supervisor Havenner acting as chairman of the meeting, and after the transaction of other business, the following proceedings were had in relation to the retirement of Supervisor Milton Marks from the Board of Supervisors.

SUPERVISOR MARKS: I desire to ask the Board at this time, with your permission, that the Board grant me a leave of absence from the further sessions of the Board for the next two meetings. I do not want to leave the City, but I do want such permission of the Board, and let the record show that I ask that leave.

And I desire at this time, Mr. Chairman, in view of the fact that this will be, I think, the last session of the Board that I shall attend, to express my very sincere thanks to you, Mr. Chairman, and to the staff, Mr. Dunnigan and all of his assistants, and to the members of the Board, for four years of real cooperation. which I appreciate. There have been times when we have not agreed on many issues, but I look back on the last four years without regrets, with the satisfaction that some friendships have been made, many of them which are going to last. I am particularly grateful, Mr. Chairman—and I say this sincerely—to the members of the press. I certainly would be neglectful if I were not to say that what they have stated of me and the attitude which they have assumed towards me during the past four years has been a very pleasurable one indeed. I do not know one thing that has been said here in the last four years that I would not be glad to have said of me for the balance of my life.

And for the members of this Board, those who are now on the Board and those who are to come on the Board, I sincerely wish for them that they will have the strength and power to accomplish on this Board, and for the City, the things that they have in mind, and I wish for them complete success in every personal endeavor that they will have for the balance of their lives. (Applause.)

SUPERVISOR SHANNON: Mr. Chairman: I desire to call to the attention of Mr. Marks a promise he made last Monday, to call a meeting of the Judiciary Committee next Friday to consider a resolution that I introduced here, and, if it is possible for you, without interfering with the private affairs that you have in mind, to call a

meeting of that committee for the consideration of that resolution, and have it reported in here next Monday by the other members of your committee, I will appreciate it greatly.

SUPERVISOR McSHEEHY: May I ask what the resolution is?

SUPERVISOR SHANNON: Regarding the placing of the office of Public Administrator on a salary basis.

SUPERVISOR MARKS: I will give instructions now to the Clerk to call a meeting of that committee, and, if it is possible for me to attend, I shall be glad to do so, but, in all events, the committee can be called for the consideration of that amendment, and will you, Mr. Dunnigan, bear that in mind and send notices to that effect?

SUPERVISOR SHANNON: I know, Mr. Chairman, that we all regret that we are losing the advice and counsel that Mr. Marks has been able to give us as the result of his years of experience in the City Attorney's office, at which time he obtained a working knowledge of the Charter, his legislative experience in Sacramento and his four years on this Board. At all times when he has taken the floor, I know that the members of this Board have given consideration to anything that he has said, knowing full well that he was sincerely interested and giving the best that was in him to the Board and the work of the City in general. Of course, we appreciate how difficult it is for an attorney to act as a member of the Board of Supervisors, taking the time that we all know we have to give to the work of this City. The City is growing so large that I feel serious consideration must be given, within a very short time, to have men devote all of their time and be paid a commensurate salary for the work that is to be done. If some of us were not in a position where we could give about 85 per cent of our time, which many of us do, to the work of the City, I do not know how we could continue in private business.

We regret that Mr. Marks is leaving us, and we sincerely trust that whatever he has in mind for the future, he will meet with every success that his fondest hopes anticipate.

SUPERVISOR ANDRIANO: Mr. Chairman, realizing that there are many people here this afternoon who desire to be heard in connection with our special order, I am not going to take the time that I would like to take to express the regret of myself, and I am sure I am speaking for the other members of the Board, on account of Mr. Marks' retirement from public life. I am sure that the City is losing a very competent and conscientious public servant in Mr. Marks' retirement. Those of us who have had the benefit of his advice and of his study, particularly as Chairman of the Judiciary Committee, and while we were sitting considering the proposed Charter amendments and the proposed bills before the State Legislature, realize how helpful he has been to us. Whenever he spoke on a question he had the faculty of analyzing the question, and of grasping all the angles connected with that question, and of expressing himself in a clear and concise manner. I do not believe that there is any one else on this Board who has made as thorough a study of the workings of our Municipal Government and of our Charter as has Mr. Marks. And I feel confident that the City may yet reap the benefits of Mr. Marks' study, because I am sure that he will not discontinue his interest in public affairs and that he will keep in close contact with Municipal doings and with the doings of this Board of Supervisors. So I wish to assure him of the high regard that I have for him, and of the valuable assistance that he has rendered to me as a member of this Board. And I wish to express the hope that he may have continued success in the exercise of his profession, and in any other field of endeavor which he may see fit to undertake.

SUPERVISOR GALLAGHER: Mr. Chairman, in view of the fact that the time is limited, I trust Mr. Marks will understand that what some of us are trying to say is said. I am sure, reasonably sure, that I have crossed swords as often with the gentleman as nearly any

other member of the Board, and using an old time boxing expression, I have found him "very fast on his feet". At a social function in Sacramento, during the time we were trying to put through the Reclamation Project, he took me to task at the hotel, and said some very choice things about me socially, but said politically not so much. We were having a conversation, and I said, "I want to pay this compliment, Mr. Marks, or Milton, if I may: "When you get out in front you are awfully hard to stop." And I said, "I always try not to let you get out in front. I can do better with you if I can keep you a little behind." I have a special reason for saying something nice to Mr. Marks at this time and that is this: That I had the privilege of taking over the committee of which he had charge, the committee on streets. From the very moment that that change was made until this date, I have not seen a fairer attitude on the part of a previous chairman, who could have questioned much, who could have, if he desired, obstructed, and who could have made the work a little harder for those who followed him, if he cared to, not purposely, but because of his experience. And I do not remember any one instance, in the hundreds of matters that the street committee has dealt with, where Mr. Marks has ever asked for information to interpose any objection.

He has another attribute that I wish all of us could make a part of our being—I try in my own way to do it—and that is this: That after the heat of the day, after the trying ordeal of eight, ten or fifteen hours here, when you meet Mr. Marks on the outside of the Board, and without the walls of the building, there is not even an intimation of what may have occurred that might have been, at times, unpleasant.

If rumor tells me true—and he has not said anything to me—I do not think that he is going to leave public life, and I know that if he wants it, a very much greater public reward is in store for him. I think, as a matter of fact, that all he has to do is say "Yes," and it is his for the asking. However, that is a secret that belongs to him, and which I do not know that he thought I had any intimation of.

I want to wish him luck, and I want to thank him, I want to beg his pardon for disagreeing with him if I might in a politely civic way. But I want to thank him for the help that he has been to this Board, for one thing I think can be said fairly about him, that he is one of the members of the Board that carried as much of the load as he could, and did his part to help things along as best he could.

SUPERVISOR HAYDEN: Mr. Chairman, I have been a seat-mate of Supervisor Marks for several years. And, naturally, by intimate contact, we got to know each other, of course, very well. I was associated with him on the Judiciary Committee. As a layman, I appreciated his ability and learning in the law, particularly during the time, the vexatious time, when Charter Amendments were before us. At the time of the submission of the Charter Amendments I publicly attested to his ability, and I want to reaffirm that now. I can add but very little to the compliments that have already been extended to him and which are justly deserved. I recall that when Supervisor Marks was chairman of the Streets Committee, he led the fight for the introduction of the resolution that made possible the $9,000,000 bond issue for good roads and good boulevards. And I recall that he not only played his part here in the Board in bringing about that legislation, but that he went before the people and pleaded for the adoption of that bond measure, which was finally adopted by the people. And then the time came when Mr. Marks was dispossessed of his position at the head of the Streets Committee. That was the time, Mr. Chairman, that he proved he was a good sport. He never let a whimper out of him, and took his medicine, appreciating that it was all in the political fortunes of war. And he went on his way, with other responsibilities, just as conscientiously and just as earnestly in other directions as he had done in the prosecution of the work of the Streets Committee. We all appreciate Mr. Marks' training as a lawyer. His advice at all times

has been most valuable, and now that he has determined to retire, after four years of experience—an experience, of course, which will be very valuable to him—we all wish him continued success in the practice of law. I am sure that Mr. Marks, in taking up his profession, as he will now, and giving it all his time, will, in no uncertain way, establish himself preeminent among the bar in the City of San Francisco and the State of California.

SUPERVISOR COLMAN: Mr. Chairman, I feel that the retirement of Mr. Marks from this Board of Supervisors will bring about a loss that will be felt. He applied to his work here a splendid intelligence, with the calm judgment of a trained mind. He was of material assistance to this Board in showing the way out of many embarrassing situations. And I must say, too, that he was most cooperative. Many times I myself went to him for advice on parliamentary matters and legal matters, which he was very happy to give, and give well. I think any disagreements are forgotten, and I want to wish Mr. Marks the best of good luck in his profession, and assure him that my friendship for him will certainly continue.

THE CHAIRMAN: I would like to say just a few words about the voluntary retirement of our colleague, Supervisor Marks. I want to assure him, in advance, that those few words will contain just as much sincerity as if they could be multiplied many times. As some of the previous speakers have said, we have not always agreed on all public questions that have come before this Board. I am a very firm believer in the theory that in public bodies disagreement, honest, sincere disagreement, is a good thing in public affairs and that only through the expression of honest views, which might be in conflict, can problems be beneficially solved for the public good. I have learned to entertain a very deep respect for Mr. Marks' intelligence and his ability, and I look upon his retirement as a loss to the City. I regret it personally very, very much, and I want to extend to him my sincerest good wishes for his future.

* * * * * *

I would like to ask the permission of the Board to have that portion of the record relating to the retirement of Supervisor Marks transcribed and suitably engrossed and presented to our retiring colleague.

SUPERVISOR COLMAN: Second the motion.

THE CHAIRMAN: Such will be the order.

ADJOURNMENT.

There being no further business the Board at the hour of 5:15 p. m. adjourned.

ROLL CALL FOR PETITIONS AND COMMUNICATIONS.

Operation of Sea Planes at Marina.

James McNear and Daniel Ryan, his attorney, appeared in the matter of proposed legislation affecting the operation of seaplanes at the Marina.

City Attorney O'Toole at the previous meeting had advised that the City Planning Commission had no power to prevent the use of the waterfront adjoining the Marina for taking off and landing of seaplanes unless the ordinance was broadened in some respects, and on Supervisor Stanton's motion he was requested to bring in such amendment as would confer such power on the Commission.

MR RYAN: The proposed ordinance is not even submitted yet and we are asked to stop building which is going on under permit of the Board of Public Works.

SUPERVISOR STANTON: Our request is that situation stand just as it is until ordinance is reported.

Supervisor Andriano moved that matter take usual course and be referred to proper committee.

Mr. Ryan agreed, in accordance with Supervisor Stanton's request, that the physical work of building be stopped until such time as the matter is determined.

MAYOR ROLPH: The motion is that when this matter comes before the Board from the City Attorney's office it be referred to the Public Welfare Committee, and that in the meantime Mr. Ryan, representing vested rights, agrees with the Board that they will not proceed with the building of the physical properties or structures there.

MR. RYAN: Yes.

MAYOR ROLPH: And will not proceed with what you are doing at the present time until it is thrashed out before committee.

MR. RYAN: Yes.

THE MAYOR: All in favor please say *aye.*

There being no objection it was so *ordered.*

SUPERVISOR STANTON (to Commissioner Riordan): Will you hold up the permit?

COMMISSIONER RIORDAN: The Board of Public Works can only do what the law requires.

Referred.

Subsequently, the following proposed ordinance, prepared by the City Attorney, was presented by Supervisor Stanton and *referred to the Public Welfare Committee*:

Bill No. ————, Ordinance No. ———— (New Series), as follows:

And any person. firm or corporation violating any of the provisions of this ordinance shall be deemed guilty of a separate offense for each and every day during any portion of which any violation of this ordinance is committed, permitted or continued by such person, firm or corporation.

Pasadena's Tournament of Roses.

The following were read and ordered *filed*:

December 20, 1929.

Honorable Board of Supervisors, City Hall, San Francisco, Calif.

Gentlemen: The Honorable James Rolph, Jr., Mayor, has directed me to transmit a copy of a telegraphic message sent by Mr. C. Hal Reynolds, president Tournament of Roses Association at Pasadena, extending a cordial invitation to him to be the Grand Marshal of the parade at Pasadena on New Year's Day, typifying the spirit of California.

I am also attaching you a copy of His Honor's reply and acceptance. The Mayor hopes that you will grant him the privilege of absenting himself to attend and represent the City and County of San Francisco on this wonderful occasion.

Very respectfully,
(Sgd) WM. A. SMITH,
Assistant Secretary to the Mayor.

Pasadena, Calif., 2:20 p. m., December 19, 1929.

Hon. James Rolph, Mayor, San Francisco, Calif.

May we have the honor of your presence as Grand Marshal of the Forty-first Annual Tournament of Roses parade, which will be held in Pasadena on New Year's Day next. The friendship of San Francisco toward our efforts in a festival designed to portray the spirit of California to the world has been an inspiration which would be fully realized by your generous acceptance.

TOURNAMENT OF ROSES ASSOCIATION,
C. HAL REYNOLDS, President.

From Mayor's office, San Francisco, to the Press. Dated December 20, 1929.

Night letter.

Mr. C. Hal Reynolds, President Tournment of Roses Association, Pasadena, Calif.

You have delighted and signally honored me with your wonderful invitation to be Grand Marshal of the Forty-first Annual Tournament of Roses parade, to be held in your lovely city on New Year's Day, and I accept your invitation and am mindful of the great compliment it conveys. You have always been able to count on the friendship of San Francisco and this will continue. I am confident my fellow-citizens will appreciate the great honor you do its Mayor in joining with you in your efforts to portray the spirit of California to the world. Again sincerely thanking you for the honor.

Very sincerely yours,
(Signed) JAMES ROLPH, JR., Mayor.

In re Pasadena Tournament of Roses.

SUPERVISOR KENT: San Francisco has been signally honored and we are to be congratulated, and you, your Honor, likewise, on being selected by the Pasadena officials as Grand Marshal of the Pasadena floral parade on January 1st. The Public Welfare Committee has been authorized by this Board to have San Francisco represented in the grand floral festival. I know it is rather difficult for members of the Board to get away on such a day as that, but, if possible, I hope those who can will attend. And I make a motion that the Board authorize those who may be able to do so, that they be authorized to go down and officially represent the City, and back you up in your auspicious position.

SUPERVISOR SCHMIDT: I will second that motion, Mr. Mayor.

THE MAYOR: All in favor will please say *aye*. (Ayes.) Contrary minded, *no*. (No response.) The *ayes* have it, and it is so ordered. I did receive a rare compliment from the carnival or tournament of roses, asking me to go down and be the grand marshal. They have got a festival there that is typifying the spirit of California. I hesitated in its acceptance until after I had asked Mr. Hugh McKevitt and Doctor Reid whether they would feel offended if I went down there and was not present at the East and West football game for the Shriners' crippled children. They gave me their permission to go and said they thought that I ought to go, and having that permission I accepted the invitation. I do not want anybody to think that I ran away from an affair at home, because your friends are nearer to you than your neighbors. And I want that distinctly understood. I had their permission before I accepted the invitation. It is a beautiful

compliment to the City. The City has won first prize on all occasions on which we have shown a float. It is the forty-first annual gathering. And it seems to me, that when the City gets a compliment like that to its Mayor, we ought to accept. As many members of the Board who can go, should go, and I am sure that Mr. Kent's motion carries with it whatever expenses are necessary for the committees of the Board to go down there and represent the City on this occasion. All in favor will please say *aye*. (Ayes.) Contrary minded, *no*. (No response.) The *ayes* have it and it is so ordered.

In re Memorial to Cyril Williams.

Cyril Williams, aged 89, passed away Saturday, December 28, 1929. For forty-three years he had continuously and faithfully served the City of San Francisco.

For forty-one years he was the expert accountant of the Board of Supervisors. During all that long service he was, until his last illness, at his post of duty at all times; he never was absent except from sickness or vacations.

In the preparation of budgets and tax rates and in keeping the general accounts of the municipality he was always 100 per cent accurate.

In his relations with officials, the public and the employees of the offices he was ever courteous, kindly and helpful. No one ever heard him utter critical or disparaging words of anyone in public or private life. His long life was full of Christian charity and tolerance, and his years were devoted to his family and his city.

The Board of Supervisors, with sincere sorrow, records the passing of this modest and gentle man. The city has lost an honorable, faithful and indefatigable employee. He gained and held for nearly half a century the respect and affection of everyone who knew him. His record is a monument of fidelity to trust.

On behalf of the city the Board of Supervisors extends deep sympathy to his family and respect for the memory of the late Cyril Williams.
